

Ye Snooper's Column

Things About Nyssa's Shops

On Monday morn didst a shopping tour make and of a truth didst suddenly realize that fall was here. For with all the newest in suits and frocks now on display no femme wilt long cling to her summer garments.

And at the Atkeson Emporium didst snoop out the most alluring array of autumn gowns in those fluttering soft shades of wine and blues, done up with the new bustle effects and finished off in the new gold and jeweled clasps and pins. Then for millady who doest ever have an eye on smartness there are blacks in soft wools and silks with a touch of white or gleaming metal to ward off any somberness and suits for afternoon affairs or tailored for the career miss. But to really get any true idea of their exceptional value and loveliness it will take a personal birds eye view.

And at Barney Wilsons grocery mart late summer and autumn fruits and vegetables are arriving fresh every day. Something new added to the already full list of seasonal edibles. Pears full yellowed and sweet with the juice sun ripened, golden peaches and early apples, melons of all sorts and sizes, a basket of ground cherries looking for a good friendly jam jar and still strawberries red and as luscious as in the first days of spring. And the joy of it at prices that all can afford to eat their fill now and to can for the winter months just ahead.

And what with the autumn breezes so nearly here and winter already well on his way tis a good time to spic up the home place a bit and to make sure that all is battened snug against the storms that will be sure to accompany them. And at the Nyssa lumber company they do have a remodeling and home repairing financing plan that will pay any home owner to investigate. If it be they have in mind some home remaking but lack the funds to carry on.

And what there one among us who didst not take advantage of the Golden Rule school day sale this past week, when every thing needful could be purchased at such saving prices. And the caterpillar displayed for new fall dresses were as lovely and as colorful as the first blossoms of spring. A busy little house wife didst say that she had purchased enough for three dresses for less than the price of the cheapest "ready made." An shoes too. Such a fine assortment and in the newest and most approved of advanced styles. Of a verity the whole fam-

ily should be able to tuck away the tooties in something new. Of course a new pair with a loud and lasting squeak is always popular with a prideful young owner when greeting school mates again. It sort 'o proclaims ones advance in importance in life during the summer months. Or do they still make them with such add niceties.

But what ever the season at the Nyssa theatre there is always tops in movie shows and fine entertainment for family or guests. And tis a comfortable place to relax, what with the softness of the upholstery and the shaded lights during performances, so that when the good show list ended even if thy John didst grumble a bit at having to spic up a bit after dinner for a jaunt into the night he is bound to bless thee for making him make the effort.

Then if it be that the little wife list a clever girl she will guide him next door to the Owyhee drug and apothecary further by filling his tummy with one of those fine ice cream sodas that the bosses lady doest so cleverly concoct in there. Full of real flavor and delicious rich ice cream which they do freeze on the spot. Sure tis a wholesome and most palatable dish. But for those who cannot coax the scales down there are delectable and cooling plain sodas. And they do satisfy without adding an ounce.

And speaking of reducing didst know that all protagonists of the cult do advocate lean meat. Tis body sustaining without weight adding. And at the Nyssa Packing company store they do ever have a wide variety from which to choose and right now those steaks they do vend be above average in goodness and at no added cost.

But if it be that thou art among those of the Lords chosen who these summer months have watched thy winter's meat fatten on the hoof in the family stall then it is that thou wilt be gleeful when thou hast inspected and investigated those new lockers and the freezing plate at the Polar Cold storage plant which Dr. Marshall and Mrs. Doc do keep open the 24 hours of a day for those who keep their food stuffs freshened therein. For if do remain there from autumn till spring and back again twill be as fresh and sweet tasting as it was the minute it left the freezing plate and found a permanent cold resting spot in the locker which wilt bear thy name.

But with autumn time come autumn winds and the dust they do carry doest seep and sift and nothing be sacred against its entrance. But let this not worry thee. For after all there be much that is dirtier and far harder to remove than nice clean eastern Oregon dust. Especially if one will provide them selves with a good cleaning powder or soap such as is merchandised at the Food Mart and the Golden Rule grocery departments.

Thy head list in a dither what with getting the last stitches on Susies dresses and the buttons on Johnnies shirts, and John's socks have long since all landed in the mending basket, but if it were not that the family cupboard wast bare and thou wilt just have to take a day out for baking thou might at least get one pair off the lot for John.

Then worry not. But send thy John to the Nyssa Bakery and tell him to get what he wants. And if thou art a wise Eve's daughter thou wilt send the junior sprout along also. For little eyes see much and they will come home laden with goodies to last a week. Nourishing wholesome and satisfying things that when the week list ended perchance the help mate will suggest that thou make it a permanent practice. Thus eliminating of baking day.

But with the youngsters all in school again, thou wilt find the need of a perfectly perking car again for there wilt be no little feet to run the errands now. But if thou wilt take the old carry all to Ed Pruyn for a short stay he wilt have it perking and purring sweetly for thee and all the errands can be attended to in nothing flat. Then there wilt be old coats to be

cleaned up and the woolen dresses brought forth to get a little more wear ere passed on to those who are not so far long in their growth. And if they art taken to the Nyssa Tailor Shop or to Mains Cleaners, they wilt be so freshened and renewed in appearance that 'twill be surprising how much wear there is left in those old threads.

And perchance thou art among the lucky few who wilt not need to put out for pedal extremity gear in the beginning. That is if thou wilt toddle over to the Abbott shoe fixery with what is on hand and let him give it the once over and then a going over. All polished up with a new sole and laces even boots that seem hopeless may take on a new life.

And with the autumn will come also the popping of hunters guns and all larders wilt hold again their full share of fresh wild fowl and perchance a hunk of venison or elk. And no small part in the kill wilt be that of the dogs and at no time of the year should they be more carefully fed and cared for. For with exposure pneumonia and distemper. Even at it does to humans most easily when the body list weary and the lifes ebb lowered from exposure and hunger. But if the hunter wilt take along a plentiful supply of that Purina Dog chow that Al Thompson doest merchandise and that comes so conveniently packed in paper bags, water resisting, then at the end of the day Rover too may enjoy a warming and cheering glow of a full tummy and snuggle down in a warm dry bed to pleasant dreams of the next day's hunt even as wilt the master.

Shop in Nyssa with Journal advertisers and ye wilt not waste thy time and thy gas going farther.

—Nyssa Fall Festival—Sept. 15-16—

VALLEY VIEW
