Car Loadings Over the Union Pacific
Car lots of potatoes leaving Nyssa via the Union Pacific for July fell below 1939 loadings by forty seven cars. In 1939 in July 224 cars of potatoes left the Nyssa yards while for the same month of this year there were only 177 carloads of potatoes to leave.

The decrease can be accounted for by the week holiday taken at the end of the month, the hot weather in the east causing such light demand for spuds, thereby reducing the price to an unprofitable level. However the holiday is over and all packing sheds at Nyssa are in operation and loading.

Following is the record of outgoing and incoming freight over the Union Pacific for the past month as given by station agent E. C. Crandall:

Incoming freight here included 17 cars of coal, 53 lime rock, 45 of cattle, 5 miscellaneous, 29 coke, 1 oil, 7 burlap bags for sugar and spuds.

Leaving the Nyssa yards were 88 cars of sugar, 2 wheat, 177 potatoes.
