OLSEN-GARRISON

In the soft light of burning tapers and a fire glowing on the grate, before a flower banked improvised altar in the living room of her father's home Miss Vera Garrison, youngest daughter of Mr. and Mrs. Charles Garrison of Nyssa became the bride of John Olson, son of Mr. and Mrs. Frank Olson of Baker at a six o'clock ceremony on Sunday evening.

The ring service of the Methodist church was read by Rev. Merle Bures. Mr. Garrison gave his daughter in marriage.

Crowned in white tulle over white satin with a long train the bride wore a finger tip veil of matching tulle. A coronet of orange blossoms held the veil in place. Her bouquet was of white gardenias and rose buds.

The brides attendants were Miss Vera Todd, of Portland as matron of honor who wore an aqua blue moiretaffeta. She carried a shower bouquet of gladiolus. The bridesmaid Miss Jean Bowman of Corvallis wore apricot moire taffets and carried a shower bouquet of gladiolus. Both wore coronets of the same flowers.

Betty Lou Newbill and Joanne Garrison, the brides flower bearers were dressed in pink and apricot taffeta.

Joseph Olsen attended his brother as best man.

Before the ceremony, Mrs. Lloyd Lewis accompanied by Miss Dorris Smith on the organ sang "Because," and Mrs. Lewis played Mendelschon's wedding march as the wedding party took its place before the altar.

Immediately following the ceremony a wedding supper was served at the Garrison home where Mrs. Charles Newbill presided. Miss Harriet Sarazin, Miss Nan Wheeler and

Miss Vera Jensen assisted with the service.

The bride chose a sports suit for a going away costume, the young couple leaving immediately for a short trip following the supper. They are now at home at Huntington, Oregon.

Both Mr. and Mrs. Olsen are graduates of the class of '39 of O. A. C. where Mrs. Olsen majored in secretarial science and Mr. Olsen in chemical engineering. Mrs. Olsen was a member of the Delta Zeta sorority and in her junior year was president of that society at O. A. C. In 1938 she was delegate to the National convention. Mr. Olsen was a member of Sigma Phi Sigma fraternity.

Out of town guests in Nyssa for the wedding were the bride grooms parents, Mr. and Mrs. Frank Olson and his brother, Joseph, and Jim Gargan of Baker, Miss Vera Todd of Portland, Miss Jean Bowman, Corvallis and Fred Gustavson of Medford. Twenty-four guests were present at the wedding.

On Monday evening last Miss Harriet Sarazin and Mrs. Lloyd Lewis entertained for Miss Garrison at Mrs. Lewis' home at an evening of cards and late supper. HOW TO AVOID WAR

Aggressor nations attack only when they think they can win. Here are some facts that should discourage such ambitions toward the United States.

The same bomber can fly 30% faster and farther in the United States than in Europe. It can carry 20% more bombs.

Why? Because in America we manufacture 100 octane aviation gasoline in quantity—a thing no other nation can do!

But that's only half the story. America's oil companies can expand their refineries to provide aviation fuel for 50,000 planes, or even more, faster than the planes can be built.

Is There Enough Crude Oil?

Yes, thanks to the industry's voluntary conservation program, Pacific Coast wells are operating far below capacity.

No other country in the world can even begin to support a modern mechanized army on its domestic production of petroleum. But the United States can, because we have over half the proved oil reserves of the world.

The Pacific Coast by itself can supply the Navy—even a two ocean Navy—with all the fuel oil, diesel oil and specialized greases it will ever need.

Rubber and Explosives from Oil

Synthetic Rubber, developed by petroleum research chemists, is now being produced in commercial quantities in cooperation with the large rubber manufacturers. Before our present supply of natural rubber is exhausted, the U. S. can be made 100% self-sufficient with rubber made from oil.

Explosives. The petroleum industry has signed contracts with the War Department to produce 60,000,000 gallons a year of toluene, the basic ingredient of TNT. Glycerine is being made in even greater quantities. Production of both these vital materials can be expanded to the requirements of new explosive plants as fast as the plants can be built.

The way to avoid war is to make America self-sufficient—make America strong.

The petroleum industry, on its own initiative and without government subsidy, has prepared itself to do its part without delay in a national emergency.

America's defense will never be "grounded." Petroleum will never let her down.

A report to the public on the **PACIFIC COAST PETROLEUM INDUSTRY** Three-quarters of a million people in all parts of the Pacific Coast depend on this industry for their living.

But "The Masses" were not so foolish after all!

LESS LOUDLY NOW, you may still hear an occasional agitator blasting away at the American system of business—which depends on big factories, big networks of dealers, trade-marked goods, heavy advertising, and low prices.

Agitators complained for years that "the masses" were injured by this system, and that we'd all be richer if we went back to the old cracker-barrel days.

But in spite of the complaints, little factories which have made dependable goods grew into big factories. Dealers insisted on having trade-marked goods which their customers could recognize. And the heavy advertising helped to give us our modern newspapers, magazines and radio.

Who built this system? The masses built it, by insisting on crackers they could recognize in the package, on automobiles, soups, soaps, chewing gum, cigarettes, and all other articles that carried well-known trade names.

So the agitators have had to pipe down. They have discovered that "the masses" were not so easy to lead astray after all.
