RICHLAND — Rain is injuring many of the crops in this district. Among the most damaged are alfalfa, lettuce and clover. Mr. and Mrs. Dave Mitchell had as Sunday dinner guests Mr. and Mrs. E. Brandt and daughter.

**Neglect of Accident Hazards Claims 32,000 Lives Annually in U. S. Homes**

**Falls and Burns Leading Causes, Red Cross Warns in Safety Appeal**

Washington, D. C.—The American Home—traditionally the symbol of security and safety—rivals the highway as the scene of the nation's greatest number of accident fatalities.

In a statement issued here by the Home and Farm Accident Prevention Service of the American Red Cross, it was pointed out that accidents in the home, including falls, burns and other common mishaps, claimed 32,000 lives last year—only 600 less than the number of motor vehicle deaths. Farm accidents accounted for an additional 4,200 deaths.

Statistics showed that home deaths last year increased 500 over the preceding year and farm accidents increased 300. In addition to a mounting death toll, home and farm accidents last year caused upwards of 4,700,000 injuries which resulted in economic losses running into millions of dollars.

To reduce the number of rural and urban accidents in and about the home, the American Red Cross in 1935 inaugurated its accident prevention program as a parallel project with the First Aid and Life Saving Services. This year, 9,000,000 "check lists" describing accident hazards and urging their removal will be distributed throughout the country. Approximately 2,000 Red Cross chapters have undertaken a program to acquaint householders in their vicinities with accident hazards in the home and on the farm. Chapters will be aided by the Junior Red Cross and the schools in distributing the "check lists."

The program will stress the vital need for removing accident hazards causing falls, as this type of accident resulted in more than half of last year's home accident fatalities. Burns and explosions caused the next heaviest loss of life. Accident prevention is one of seven services conducted day-to-day by the American Red Cross in its tireless campaign against accidental death and suffering arising from disaster and other causes of emergency nature. These services are supported solely by members who join each year during Roll Call, November 11-30.

Accident prevention is one of seven services conducted day-to-day by the American Red Cross in its tireless campaign against accidental death and suffering arising from disaster and other causes of emergency nature. These services are supported solely by members who join each year during Roll Call, November 11-30.

Accident prevention is one of seven services conducted day-to-day by the American Red Cross in its tireless campaign against accidental death and suffering arising from disaster and other causes of emergency nature. These services are supported solely by members who join each year during Roll Call, November 11-30.

Each year 1,400 adults and children die from accidental poisoning. Label bottles clearly and keep them out of reach of children.

Accidents on the farm yearly injure 200,000 persons and machinery is the leading cause. Most deaths and injuries are due to carelessness.

Attend Party  
Mr. and Mrs. Herbert H. Fisher

were guests at a card party given at the Jack Reed home in Parma on Saturday.

During Mr. de Lespinasse's absence the first of the week Elbert Pretwell, a post graduate, conducted the advanced band and Arlene Peterson, a union, conducted the beginning band.

In a football game played at Big Bend Park Friday between the Adrian Aantelope and the Parma Pan-

**Advertising is ROMANCE**

YOU READ THE ADS. As you read, visions come, and a desire for better things.

Do you see dresses? You picture yourself of a summer evening in this drifting white chiffon, softly printed with delicate blossoms.

Hats? Your mind's eye frames your face with a pastel shaded halo.

Foods? A cool, jolly dinner, with exciting news of the family's day.

Sporting goods? A slashing tennis game. A well-hit drive from

the tee. A hard-hooked fish and a screaming reel.

Some people say that all enthusiasm should be taken out of advertising. In books and speeches they crusade for bleak little ads that give nothing but thread counts, strength and chemical tests, dimensions and prices. What a pity if they had their way!

Advertising is one of the welcome voices that directs our eyes upward. It has worked wonders in raising our standard of living. Let's encourage it to continue on its inspiring way.
