OPINIONS BY OUR READERS

Submitted by readers of The Journal and the opinions may or may not agree with the policy of The Journal. You are invited to send in your ideas on current questions.

Mr. L. P. Thomas, Editor Nyssa Gate City Journal, Nyssa, Oregon.

Dear Mr. Thomas:

Once again Oregonians face the deadly threat of forest fires. The annual season of hazards fast approaches—the season when Public Enemy No. 1 mobilizes for his annual blitzkrieg against Oregon's greatest material asset—her green forests.

Public spirited citizens over the state are planning this year to conduct a comprehensive educational campaign to check the carelessness that yearly causes such serious waste and real danger to Oregon. They believe that "Forest Defense Is National Defense". Their "Keep Oregon Green" campaign was launched at a recent dinner in Port-

land called by Governor Sprague and attended by more than 200 representative citizens.

Naturally, this department expects to support that movement by every legitimate means within our power. Toward that end I plan to send news of forest conditions and fire prevention efforts to you from time to time, in the hope that you will find at least a part of such releases suitable for publication in your newspaper.

The Journal rendered splendid and appreciated service to the cause last year. I am sure you feel as I do that the problem is even more vital this year. Please accept my sincere thanks for past support and whatever cooperation you can give in the 1941 campaign. Any suggestions you may have in the matter of publicity will be welcomed.

Sincerely yours,
N. S. Rogers
State Forester

Lower Bend

Br-r-r-r-r!

Water's kind of cold, isn't it? Well, there's no need for that . . . not when you can get an automatic electric water heater so easily, and operate it so cheaply!

Why not be done with cold-water baths, shaves and face-washes? Install an electric water heater in your home and live like a king from now on. It's completely automatic and furnishes an unlimited supply of hot water any time of the day or night—simply by turning the faucet!

See your nearest electric dealer and let him give you the full details.
