A Statement On Milk Price Advance

Effective July 1, 1941 the Shelton Dairy and the Gate City Dairy, will by force of circumstances, advance the price of delivered milk and cream to consumers in Nyssa.

Feeling that the public is entitled to know the reason for this advance, the following is the basis on which we are forced to raise our prices:

Dairy supplies, and the necessary equipment for the sanitary handling of our product is advancing in price. The cost of producing milk and cream is, along with all other commodities on the advance. It is only just that our producers (the Farmer) receive a compensation that will be enough to give him a decent American wage for his efforts and investment.

We are reluctant to make this advance, but if we are to deliver milk and cream that complies with Oregon State regulations governing dairies, we are forced, in the face of advancing production costs, to the only alternative of advancing prices on milk and cream.

The following is the schedule on delivered milk and cream, beginning July 1:

MILK
Quarts 11c-Pints 6c
CREAM
1/2 Pints 17c
Pints 30c-Quarts 55c
