STATE CAPITAL NEWS

A. L. LINDBECK

SALEM, OR.-- In turning thumbs down on Governor Sprague's plea for a second term the voters of Oregon have run true to form. Not since Governor Withycombe was re-elected in 1918-24 years ago--has this honor been conferred upon a chief executive of this state. Incidentally Withycombe is the only republican to have been elected to a second term as governor since statehood. In that period of 84 years only four governors have been re-elected to that high office. The other three were Democrats--LaFayette Grover in 1874; Sylvester Pennoyer in 1890 and George E. Chamberlain in 1906.

The Senior Citizens Annuity committee, a group of Salem men interested in more adequate assistance for the needy aged, have initiated a measure providing for a system of state old age retirement insurance. The measure, which it is hoped to present to the voters in November, provides for the payment of monthly retirement insurance to every resident of the state 65 years of age or over whose annual income does not exceed \$240. The plan would be financed by monthly premiums of not less than \$1 levied against every able bodied adult regardless of earnings. Persons with large incomes would pay proportionately more into the fund. The amount of retirement pay would be determined by dividing the amount in the insurance fund each month by the number of applicants for retirement pay. In addition to the premium payments from individuals the state would be required to contribute from its

tax revenues an amount equivalent to 50 cents for each dollar of premium collected.

Two reports released in Salem this week reflect the constantly improving employment situation. Records of the employment service show only 17,532 job applications on file, the lowest in the history of this department. A year ago there were 33,815 persons seeking jobs through this agency, nearly double the present figure. Practically all of the current job seekers are unskilled workers who are not qualified to fit into the present defense program with industries begging for thousands of workers to fill jobs. At the same time the Unemployment compensation commission reported that April benefit payments totalled only \$202,568, or 26 percent under payments for April, 1941. Benefit payments for the current year to date are reported at seven percent below those for the first four months of 1941.

When the legislature of 1929 enacted a law providing for the serving of summons against non-resident motorists involved in automobile accidents through the secretary of state, the law makers left a gaping hole through which one California motorist has just made damage action. The motorist in escapee the consequences of a Susanville, California, refused to question, one James E. Pardee of accept service of summons through the secretary of state on the ground that he was not the owner of the car which he was driving at the time of the accident. This contention was upheld by the state supreme court last week in an opinion in which it was held that the act of 1929 applied only to non-resident automobile owners.

According to the annual report of A. A. Rogers, state superintendent of banks the banks of this state reported resources of \$503,358,169 at the close of 1941, a gain of more than \$90,000,000 during the year, and approximately \$200,000,000 in

the past four years.

Pre-election estimates of a 40 percent vote were approximately correct as revealed by Friday's voting with the Republicans polling slightly more than 50 percent of their registration because of the greater interest in the gubernatorial contest and the Democrats slightly less than 30 percent of their registration.
