BETWEEN FRIENDS

By Ed. Pruyn

Howdy Folks: It is said that the government ban on building construction will increase the market value of every existing structure. Now, as good Americans, we can all get rich selling our homes to one another.

It's fine to be rich, but it doesn't always mean a lot, though. There was the party who owned a yacht, an airplane and three automobiles and still walked in his sleep.

It does mean a lot to be saving in these times, though, and we can help you save if you'll let us repair your automobile.
