SCRAP WILL BE NEEDED ALL DURING WAR

The Nyssa scrap metal harvest committee, with the assistance of local residents, have completed a successful campaign, but the people should realize that the war can be won only if the flow of scrap metal to the steel mills is continued.

The steel is needed for armor plate to protect our boys from bombs and bullets. Steel is needed for weapons to help them do the job that must be done before they can come home again.

Fifty per cent of all new steel is made of scrap and our mills now have only enough scrap in sight to last another 30 days. What happens after that depends on all of us. If production falls and you have not done your part will you rest easy?

From now on, everybody should save every bit of material that they think can be salvaged for use in the war effort. The united nations have the Japs on the run and have at least temporarily stalled the German war machine and part of their success is due to the great productive capacity of the United States. Let's do our part to keep up that production.

WASTE AND IDLENESS

Caldwell News-Tribune

A reporter for The Seattle Times got a job in a shipyard near Seattle, and after two weeks of observation reported that there was a great

deal of idleness. Men were not employed at full capacity, but had plenty of time to visit friends in various parts of the yard, to do over again work which had been done before, to look busy by poring over blueprints of which the workman knew nothing, to mill around the exit gates several minutes before closing time.

These are serious indictments, especially as the reporter declared that he was convinced the condition was not local—that it existed in other shipyards in the Puget Sound and in the shipyards of Oregon and California. Also that it existed in other war industries, not only on the Pacific Coast but elsewhere in the United States.

There are times, of course, when yards and factories are kept waiting for necessary parts. In these circumstances perhaps men who frankly play checkers cannot be criticized. They are ready to go ahead with the work at any moment. Top-notch management, however, might be able to devise useful work to fill such interims. Unions in many cases prevent such sensible use of time and manpower.

Two things about such waste become appalling. One is deterioration of character of the men themselves, idle and cheating their country. The other is the waste of lives on battlefronts because needed materials do not arrive in time.

Paul Gilbert is now in the war zone overseas.

Harley Wilson was a Nyssa caller Wednesday.

Larry Gueck, son of Mr and Mrs Roy Gueck, had his tonsils and adenoids removed the first of the week.

Otto Wolfe and Lester Kendall have completed the building of their underground silo's and last week filled them with silage.

Mr and Mrs Lester Zurcher of Homedale visited Sunday with her parents, Mr and Mrs Charlie Wilson.

Mrs George Wilson and children visited their husband and father, George Wilson in Nyssa Sunday. Marian Price accompanied them.

While R. W. Bolitho was looking at his coyote traps Sunday, his car slid into a washout behind Chalk Butte and it took the aid of a tractor to get the car out.

Roy Warren, Harley Wilson and Lloyd Landreth were business visitors in Caldwell and Nampa Friday. Mr. Warren purchased material to line his house.

A meeting of the community Sunday school officers was held at the Grover Cooper home Friday evening. Rev. R. G. Chandler of Caldwell was also present.

Mr and Mrs Harley Wilson motored to the Lowe Hot Springs Sunday.

Bud Chapin was given a surprise birthday dinner Sunday at his home. Those present were Mr and Mrs Kenneth Lorensen and Bernie and Mr and Mrs Grover Cooper.

Mr and Mrs Ora Newgen of Wilder and Lynn Buffington were dinner guests at the L. E. Newgen home Sunday.

Mr and Mrs Howard Evans of Parma and Mr and Mrs John Westfall of Owyhee spent Sunday with Mr and Mrs Stanley Penn. Harley Wilson purchased pipe last week to pipe water about one eighth of a mile to his place.

Mr and Mrs Sid Paddness of Walla Walla arrived Sunday morning for a visit with her parents, Mr and Mrs Les Wing. Mrs Paddness was formerly Leota Hines of this Valley.

Mr and Mrs Leslie Johnson of Caldwell and Mr and Mrs Bill Fancher of Nebraska called at the Kenneth Lorensen home Sunday.

The Pleasant hour club met at the Sunset community hall Thursday. A potluck dinner was served. The women quilted a quilt for Mrs Sid Paddness of Walla Walla.

The Sunday school rally of the union Sunday school has been planned for November 1. at the community hall.

Lincoln Heights

Only 53 attended Sunday school Sunday. A minister will be present next Sunday, October 18, at 3 o'clock. Sunday school will be held at 2 p. m.

Plans have been made to hold a Rally ray program with all day services and a basket dinner at noon, November 15. Everyone is

invited to attend.

Mr and Mrs Bob Degross visited relatives here Wednesday evening and Thursday before leaving for California.

Mr and Mrs Eric Musick and sons of New Plymouth, Idaho were Sunday visitors at the Emil Frank home.

A pie social will be held Friday evening, October 30 by the PTA.

Mrs Tom Pettet and son, Carl returned Saturday from Portland where Carl exhibited his 4-H calf at the stock show.

Mr and Mrs Chuck Sweezy and family of Washington and Mr and Mrs M. Bergstrom and family of Ontario were Sunday visitors at the Claude Page home.

Mrs B. J. Pennington of Payette, Idaho came Tuesday to spend a few days at the Georg Pennington home.

Mr and Mrs Ivan Pennington of La Grande announce the arrival of a baby boy.

Mrs Albert Clement, nee Eileen Findley, daughter of Mr and Mrs Iven Findley, underwent an appendix operation last week.

Mr and Mrs Ray Whitsell and family were Sunday dinner guests at the home of Mrs. Whitsell's

mother, Mrs Annie Harris. Forest Sayers, who cut his hand recently is improving.

WAR CROP GOALS FOR CO. REVEALED

Malheur county war crop goals for 1943 cover crop seed production were announced by Pieter Tensen, chairman of the county AAA committee. Definite acreage goals have been set for Austrian winter peas, while an unlimited acreage of hairy vetch and annual rye grass is wanted.

For Austrian winter peas, a county goal of 1500 acres has been established.

The chairman emphasized that these goals represent the acreage of Austrian winter peas for which a government price support program will be continued in 1943 through the AAA seed purchase program. Individual farm goals will be set for each grower, he added. Farmers who grew these crops in 1942, and those wishing to divert from wheat to warcrops will receive first consideration in the distribution of the county goal to individual farms.

FOR SALE OR TRADE FOR NYSSA PROPERTY

Modern 5 room Utah Residence, White Stucco

Five miles south of Ogden. City water, large lawn, chicken coop, with cement floor, half acre garden spot. \$2500. Near defense project.

Businessmen—Let's talk about death! Let's not dodge the issues —let's face facts. A lot of good American fighting men may soon have to die for want of scrap! Oregon must yield 100,000 tons.

It can happen to you!

Even if you're the world's most careful driver, you may not escape accident. Be prepared in advance with "cover-all" insurance.

CHARLES S. LEAVITT

Democratic Candidate for Judge of Malheur County

General Election, Tues., Nov. 3 Platform:

A square deal for all of Malheur County.

I am a native of Malheur county; seeing the county grow steadily from sagebrush plains to fertile and productive farms. I was employed in my early youth by the Pacific Livestock company, riding after cattle and freighting supplies across the country with long teams from Huntington and Ontario.

I followed civil engineering for a number of years in southern Idaho, eastern Oregon and northern California. I farmed for a time before entering the sheriff's office in 1925 as deputy under C. W. Glenn, sheriff, where I have served nearly 18 years, and have retained my contact with farmers through membership in the Grange.

Vote 28 X

VOTE 310 (X) YES
SAVE OUR STEELHEAD TROUT

Vote against exploitation with profits for a few to be gained by "net fishing" for the benefit of game fish—our steelhead.

Play fair with the boys in the service, while they're away, so they may find their "steelhead" when they return again.

310 (X) YES

WE'RE talking facts, remember! Such as the fact that steel for every tank, ship and gun must be made of 50% scrap. And the terrible fact that America's mills are starving for this scrap — without enough on hand for even 30 days more production!

Which puts it up to you!

Monday, October 5, starts the big scrap metal drive. And you, as a business man, have a double job to do. Clean out your home — and

scour your place of business, factory, office or store . . . for every single bit of scrap.

And when you see the stockpile grow—for the mills to take when it's needed—be glad that you've done your part . . . that your work may have saved some boy from a needless death!
