ALLIES FIGHT FOR FREEDOM FOR ENTIRE WORLD

On July 4, 1776 the colonies won their freedom from England and Americans have fought several times to preserve that freedom and are now fighting to save it for themselves and others.

As we approach Independence day, celebrated only in the United States, invasion of Europe by the allies is imminent. Casualties on both sides will be terrific and the frightfulness will be appalling, but victory can come only by striking at the continent.

Blinded by propaganda and warped by militarism, the poor dupes in Germany, Italy, Rumania and other countries do not realize it, but their rescue from slavery depends upon victory for the allies, whom they are fighting with a vengeance.

Like the mythical American, Johnny, in the song written during the last world war, the soldiers of Europe "don't know what it's all about". Johnny said he would soon find out, but it is doubtful whether the Germans, Italians and others ever find out what they are fighting for, unless they come to the realization that they are warring because their dictators told them to start slaughtering.

The people of Europe will never find freedom from slavery or freedom from anything else until they eliminate the dictators, and right now the only hope of eliminating them is an allied victory.

It would be easier to pay our 1942 and 1943 taxes than to figure out the new income withholding tax, but, of course, we don't like anything easy.

Mrs. America Meets The War

Being a stay-at-home is not only fashionable this summer, but it's a patriotic responsibility of Mrs. America and her family to travel only when necessary. Here's the way the Office of Defense Transportation looks upon travel during this wartime summer. If you make a train or bus trip for any of the following six purposes it's non-essential travel: Trips to other cities to visit friends, trips home for the week-end, sight seeing trips, trips to the theater, races or other places of amusement, any social travel or travel for pleasure, travel merely for the sake of going somewhere. Curbing unessential travel is imperative because of heavy troop movements and other military traffic.

If Mrs. America hasn't made up her mind that wide variety in furniture is out for the duration, she can be certain of that fact now that a War Production Board order has gone into effect cutting the number of existing patterns allowed manufacturers. But they're free to select those patterns. It is expected that manufacturers will concentrate on the most desired furniture, cutting out novelty items. Of course, it's no easy task being a furniture manufacturer these days, obtaining materials and labor. Ma-

ny types of wood are available for civilian goods for they're needed for military uses, and metal is permitted furniture makers only for the essential joining parts. But good old American ingenuity has been able to get around the lack of metal, and comfortable and satisfactory furniture without springs has been developed. As for upholstering furniture, there's a change in the stuffing used since fine down is reserved for army sleeping bags, and kapok is in the Navy now filling life belts. However, cotton wadding and some types of feathers are available. Besides several varieties of plant fuzz are being tried. Mrs. America will have until October 31, to make her selection of footwear with the new shoe stamp, number 18 in war ration book one. That's 11 days longer than the period of validity for stamp 17. The length of time assigned to the shoe stamps brings the rate of purchasing to about the same as it was during the period from 1936 through 1941.

Here's good news on the textile situation. Improvement in wool supplies in recent months is responsible for a relaxation of some restrictions of the War Production Board. For example, manufacturers no longer are required to use any part of their wool quotas blended with reprocessed or used wool or with other fibres. The choice of using wool quotas either for a production of 100 percent wool or blended civilian yarns and cloths is left to the manufacturer. Reporting on the cotton fabric production, the War Production Board explained that production for the first quarter of 1943 exceeded that of the same period in 1942 by 27 million linear yards.

The new pay-as-you-go, income tax law, which goes into effect July 1, has focused Mrs. America's attention to the Bureau of Internal Revenue. As a matter of fact, the bureau will draw the interest of many women workers for most of the approximately 15,000 new employees added to handle the new tax system will be women. However, the addition of so many women employees is not new to the bureau. As far back as February, 1942 women employees made up 42.8 percent of the total personnel. Although the majority of the women employees are clerical workers, many of them have been handling technical jobs requiring thorough knowledge of various tax laws.

And now for encouraging news from the leather goods department. There should be more dress gloves and mittens, pocketbooks, handbags, brief cases, tobacco pouches and key cases made of cattle hide and calf and kip skin leather on the market. These leather products for civilian use had been prohibited, but a War Production Board amendment will allow manufacturers to use until December 31 cattle hide and calf and kip skin leather for any purpose provided it was ordered prior to February 17, 1943 and delivered before April 1.

The letters "Mr" on radio tubes made for home sets stand for "Maintenance and Repair" and they earmark tubes which are made from materials allocated for civilian sets. Speaking of radios, it is not necessary now to remove a radio from an automobile when selling the car or to get a special WPB authorization for such a transfer without removal of the radio.

Arcadia

There were 32 present at Sunday school Sunday. The officers were re-elected. A new class was organized for the juniors with Marjory Orris as teacher. Sunday school will be held at 10 a.m. next Sunday.

Mrs. Lily Dement went to work for Mrs. Wyckoff of Ontario last week.

School election was held last Monday at the school house. Vern Butler was re-elected director and Mrs. Glen Dowers was elected clerk in place of C. W. Barret, who has held the position for the past 30 years.

John Zittercob, John Shenk, Theo Matherly and George Moeller are cutting their peas for the cannery this week. Glen Dowers cut his peas this week.

Bill Hipp chopped his hay last week. John Zittercob baled his hay out of the field. George Moeller and Vern Butler stacked their hay and Theo Matherly chopped his.

The school board met Wednesday night at the school house to make the school budget for the coming year.

Freddie Gregg, who is stationed at Pomona, Calif., spent two weeks here with his wife and son and his parents at Burns. He returned to his camp Monday. His wife and son accompanied him to California.

Pearl Kilborn of Caldwell is visiting her uncle, Bob Barber.

Lesland Lay, who left here with his parents, Mr and Mrs Willard Lay last fall for Spairnaw, Okla. has returned and is employed on the Sunquist farm on Gem Avenue.

THE POCKETBOOK OF KNOWLEDGE

A NOVEL GUIDE TO WEATHER CONDITIONS IS A NEW INK WHOSE COLOR CHANGES INDICATE THE HUMIDITY IN THE AIR.

SCRAPPLE AND OTHER MEATS CAN NOW BE COOKED IN A NEW PAPER CONTAINER WHICH WITHSTANDS 350° HEAT.

INDIANS OF SOUTH AMERICA BAKE THE WORLD'S THINNEST BREAD LOAVES—THE "LOAVES" MEASURE TWO FEET ACROSS AND BUT HALF AN INCH THICK.

A SUBSTITUTE FOR SUN ITSELF IS A NEW LAMP THAT RADIATES HEAT AND ACTUALLY CONTROLS WEATHER CONDITIONS BY CASTING ARTIFICIAL "SUNBEAMS" ON PLANTS AND VEGETABLES.

A CALIFORNIA FACTORY IS CAREFULLY GRADING LEAVONS WHICH ARE NOW BEING USED LIKE BLOOD PLASMA FOR TRANSFUSIONS.

Owyhee

The Owyhee P.T.A. will meet at the home of Mrs. Martha Klingback Thursday afternoon, July 8, at 2 P.M.

Mr and Mrs S. D. Bigelow received word of the death of Marjory, daughter of Mr and Mrs Ben Logan, who are relatives and former residents of the Owyhee district. They are now living in Oakland, California.

Mr and Mrs E. H. Strickland entertained at dinner Sunday for Rev. and Mrs. Kriner and their family of Payette and for Mr and Mrs S. D. Bigelow.

Rev. Kriner held preaching services after Sunday school Sunday. The attendance at Sunday school is still good.

John Strickland is a semi-invalid the last week as he had his knee quite badly injured.

Mrs. Martha Klingback, Mrs. Russell R. Wolf, Jr., of Boise and Fred Klingback were Sunday callers at the Anna Larson home.

Mr and Mrs Russell Patton, Jr. were dinner guests of Mr and Mrs Gerald Slippy Sunday.

Mr and Mrs G. L. McMillan and Mr and Mrs Frank Crocker and family were dinner guests of Mrs. Lewis Skinner and Mrs. Clara Nicholson Sunday.

Mr and Mrs Eyrd Walters of Boise are spending the week at the parental Ellis Walters home.

Miss Mary Collins of Boise was a week-end guest of Mr and Mrs Jess Gregg.

Mrs. E. H. Strickland was hostess to a party for 18 of her younger music pupils last Friday at her home.

A daughter was born to Mr and Mrs. Dick Brown of Boise last Tuesday. Mrs. Brown, former resident of this district, is the daughter of Mr and Mrs L. Kygar.

VICTORY FOOD HINTS

Leona Anderson Home Service Advisor Idaho Power Company

SECRETS OF SUCCESSFUL OVEN DEHYDRATION

With the food situation as critical as it is at this time, we want to preserve all food available for winter use. Oven drying solves one of these preservation problems. All you need is a thermostatically controlled oven so that you can keep it at an even temperature of about 150 degrees. Set your oven as low as

possible and test the heat with a candy thermometer or dairy thermometer, if you have one.

The oven-door is left ajar to allow circulation of air. This is important. It is also necessary to place the two oven racks, with the drying trays on them, as high as possible in the oven. This places the trays far enough from the source of heat to prevent scorching, but does not delay drying. At a temperature of 150 degrees most foods will dry properly in 6 to 8 hours. Less heat is needed during the latter stages of drying, so if necessary, reduce the heat.

Be sure to remove the upper unit. Preheat the oven so that food may be placed in it as soon as steaming or sulphuring is completed. Trays can be made of a small mesh wire by turning up the edges one inch on all four sides, simple, isn't it? Don't fill the vegetables or fruit to a depth of more than 1/2 inch on the trays.

The vegetables should be prepared before drying by placing them in a wire basket or cheese cloth and blanching them by steam. Pour about 1/2 inch water in the bottom of a large utensil with a tight fitting lid and when the water boils, put the vegetables in and steam them the required length of time.

Vegetables should be stored in a dry, cool, dark place. Seal the jar in which you keep the vegetables with paraffin or scotch tape and place it in a paper sack or wrap it in paper. This method of storage assures your vegetables against insects and loss of color.

If you are interested in learning more about drying and brining attend the Health for Victory classes near your home. Anyone is welcome.

Sulphuring and drying fruits will

Do You Have Enough Picket Flour

on hand for those picnic breads, cakes and pastries? Remember Picket is enriched with vitamin "B".

Picnic Get The Best Try Our Meats

Considering wartime conditions, we have a good stock of lunch goods that will find favor with all of your guests.

Fox's Drive-In

be discussed in a later article. TABLE FOR DRYING VEGETABLES Beans, green, break in short lengths or cut lengthwise, steam 15 min.; carrots, peel, slice, dice or shred, steam 10 min.; corn, cut from cob after blanching, steam 20 min.; greens, trim, wash leaves, steam 5 min.; peas, shell, steam 8-10 min.

Farmers To Get Certain Lumber

Farmers will be able to obtain lumber under a new rationing program, but even farm building will be limited to construction essential to increasing food production. R. B. Taylor, chairman of the Oregon USDA war board, reported this week.

The War Production board has allocated 500 million board feet of lumber for farm use during the next four months, designed to relieve a shortage created by critical war demands that have drained the nation's lumber yards. Oregon has been given 6,700,000 board feet, which will be distributed to counties on a quota basis.

Farmers who are unable to obtain lumber existing procedures may apply to their county war board for a purchase certificate, Taylor explained. Approved purchasers will be given a certificate bearing an AA-2 priority rating. Dealers may extend this rating to mills to replace their stocks.

Lumber will be issued only for maintenance and repair of farm building and new construction essential to production. The program excludes dwellings.

War demands of wood are great-

ly exceeding production, Taylor said. He cited the need of the armed forces for boxing and crating material, pontoon bridges, mine sweeper timbers, wooden ships, and many other uses for lumber.

So that "we can substitute here at home instead of on the battlefield"—the war board chairman asked farmers to use substitute materials wherever possible. Fabricated building boards for inside or outside use, tile, brick, rubble masonry and concrete all can be used instead of lumber in many farm buildings, and most of these materials are available without priorities, he declared.

Any excuse you can give for not upping your payroll savings will please Hitler, Hirohito and puppet Mussolini.

You Women Who Suffer From HOT FLASHES then CHILLY FEELINGS

If you—like so many women between the ages of 38 and 52—suffer from hot flashes, weak, dizzy, nervous feelings, distress of "irregularities", are blue at times—due to the functional middle age period in a woman's life—try taking Lydia E. Pinkham's Vegetable Compound at once. It's the best known medicine you can buy that's made especially for women.

Pinkham's Compound is famous to relieve such distress. Taken regularly—it helps build up resistance against such annoying symptoms. It also is a fine stomachic tonic. Thousands upon thousands of women—rich and poor alike—have reported benefits. Time and again Lydia E. Pinkham's Compound has proved some women's happiest days often can be during their "40's". Follow label directions. Worth trying!

Old Mother Hubbard

Went to the Cupboard--But when she got there the cupboard was bear.

How About Your's?

Will it be stocked for that 4th of July picnic?
