WEATHER CALLED ABOUT AS USUAL

NAMPA, Sept 2 (Special)—So you think we're having unseasonably cool weather, huh? Fall's coming early this year, you say?

That's what we thought, too, until Nampa's reliable weather statistician Carter Richmond at the Pacific Fruit Express company put us right.

Richmond says we always have cool weather late in August and that we may expect warmer days in early September. This is just the change over to Indian summer—that's Richmond's viewpoint.

Sunday's temperature maximum and low were 78 and 58 while this morning's low of 48 degrees was

believed reached at 7 a. m.

On Aug. 27, 1942 the high temperature as 61 degrees and the low 51; August 28, high, 63, low 43. Aug. 29, 1943, high 71, low 46.

Way back in the pre-Pearl harbor days of August 1941 we find temperatures of 69 and 47 for high and low of August 30 and temperatures of 73 and 49 the following day.

Now just to make us feel good Mr. Richmond offers September figures of a year ago to assure us of more balmy weather before the frost gets on the pumpkin. High temperature for Sept. 2, 1942, was 91 degrees, Sept. 3, 4 and 5, 88 degrees each.

J. SIMPLOT AND MEN MAY AGREE

CALDWELL, Aug. 30 (Special)—Satisfactory termination of the prolonged negotiations between the Simplot dehydrator here and the International Brotherhood of Teamsters, Warehousemen, Chauffeurs and Helpers was in sight today with the reaching of a tentative agreement between the management and the union representatives which still must be accepted by the union membership, J. Harold Aird, personnel manager at the plant said today.

If the members of the union approve, application will then be

made to the War Labor Board in Washington for approval of the wage increases provided for, including a differential of at least three cents an hour in favor of the "graveyard" shift in the 24 hour operation. Lack of this has made it difficult to get a labor force for the shift, Aird said.

Cost Of Living Plan Is Adopted

Details of a nationwide, cooperative campaign by homemakers and merchants to hold down the cost of living and combat black markets were announced today by the office of price administration as volunteer civic committees in more than 100 communities throughout the country conducted local drives to secure signers for a "home front pledge."

Those signing the home front pledge agree (1) "I will pay no more than top legal prices," and (2) "I will accept no rationed goods

without giving up ration stamps." In many communities, including Oregon, merchants, retail associations and chambers of commerce are being asked to assist in the campaign and retailers are pledging that they will neither sell above top legal prices nor give up rationed goods without collecting stamps. Richard G. Montgomery OPA district director, explained. All persons signing the home front pledge will receive red, white and blue stickers to display in home or store windows signifying that they are willing to do their part on the home front to keep down the cost of living and share

scarce goods fairly with their neighbors.

In announcing details for the program today, Chester Bowles, OPA general manager, said:

"This is not a program of the office of price administration or any other government agency. It is a people's program in which every citizen can cooperate. All of us should remember that in a democracy it is not the government which must fight black markets or rising living costs. It must be the people for they and they alone, have the power to protect themselves from the inroads of the black marketer and the chisler . . ."
