SEND YOUR ARMY "BOY" AN APPLESAUCE FRUIT CAKE
 No matter how good or bad army rations may be, the boys always enjoy food from home, especially if it is baked by someone they love.
 Other cakes can be sent if they don't have to go too far. A safe bet, however, for safe shipping is an applesauce cake. It keeps well, it is compact, and does not crumble easily.
 This cake, when served to the family on the home front, can accompany fruit desserts or be steamed and served with a pudding

sauce. It builds morale.

APPLESAUCE FRUIT CAKE

- 1/2 cup shortening
- 1 cup sugar
- 1 cup cold unsweetened applesauce
- 2 cups flour
- 1 teaspoon soda
- 1 teaspoon cinnamon
- 1/2 teaspoon powdered clove
- 1 cup raisins and nuts cut in pieces

Cream butter, add sugar gradually. Add applesauce. Add flour sifted with soda and spices. Add raisins and nuts. Bake in buttered, floured loaf pan about 40 minutes in moderate oven (350 degrees). When cool wrap well in heavy waxed

paper, store in tightly covered box.
WAR FARE: Use part bacon or chicken fat for shortening if you like. Add 1/2 cup candied fruits, 1/2 cup chopped figs if desired.

TIRE SITUATION IS HELD SERIOUS

At the present time truck tire demand for list "A" vehicles exceeds estimated civilian truck tire production by more than 200,000 tires per month, according to the office of price administration.
 "At this rate, we face a possible

shortage of one million truck tires by the end of this year", the CPA said. "There are indications that continued heavy military demands, the introduction of synthetic tire construction, and shortage of facilities, equipment and manpower may cut further into the limited production of new civilian truck tires".
 A shortage is also indicated in passenger car tires.
 For all of 1943, according to William Jeffers, rubber director and his successor, Col. Dewey, only 17,000 tires, both new and used, will be available to keep essential passenger cars operating. Of this number, approximately 5,000,000 will be synthetic.
 "If the rubber director's estimate of a 17,000,000 tire supply is correct", the OPA said, "a shortage of 8,000,000 tires is indicated by the end of this year. Acute shortages have already developed in most sections of the country. A shortage of the proportions indicated carries a threat of serious disruption of war worker transportation. To avoid such a condition, greater selectivity in certificate issuance appears imminently necessary".
 "The OPA is hopeful that if all stocks of tires culled from junk yards and auto graveyards can be made available for some additional use, the year-end shortage may be

held to perhaps 6,000,000 indicated shortage will obviously be reduced to the extent of any production of new synthetic tires in excess of 5,000,000.
 "The continuance of maximum recapping will also have a favorable influence on the indicated 1943 passenger tire shortage".

did not come back and the empty bunks, the blankets thrown aside as they threw them, and the framed photographs on the steel lockers.

"I have seen the supplies come in by the hundred shiploads, locomotives and tanks and trucks—acres of boxed food and great mounds of hams, shiploads of bombs stacked in from keel to hatch and all materials that we need at home—steel for bridges and buildings, food for our own people, material enough to make all America well fed and well housed and well clothed.

"The men have gone up the gangway again to go into action and they jump from landing barges to a beach, strewn with the bodies of their own people, and they claw their way like animals into a hostile coast.

"I have seen the men climb into the Fortress in the early morning and fly away waving with elaborate nonchalance and I have seen the gap in the mess when they

"I have seen the hospitals with the mauled men, the legless and blind, the fingerless hands and the burned faces—all the destruction that steel and fire can do to a man's body and mind. In God's name, what is it for except to get this horrible thing over with as quickly and as thoroughly as possible? And if this is true, it should not be a matter of 'Who will lend his money?' but 'Who dares not to?'"
