SUGAR RATION REMAINS SAME

Sugar rations for home use will remain the same for another two and one-half months, according to the Office of Price Administration. Sugar stamp number 30 in War Ration Book Four becomes valid on January 16, and will be good for buying five pounds of sugar through the end of March. Sugar stamp now in use, is good through January 15.

PLENTY OF ANTI-FREEZE
The nation's motorists are being overhauled on anti-freeze and told of shortages that do not exist, according to the war production board. Production of alcohol anti-freeze for this winter is 50 per cent more than last, WPB said, and asked motorists to watch their own needs and not to overload. Alcohol from which anti-freeze is made is a critical war material.

ITEMS NO LONGER RATIONED
Pressure cookers and feed grinders and chushers have been removed from rationing. Because the supply of pressure cookers will not meet all uses, the approval of the War Food Administration is necessary for purchase of pressure cookers for other than food preservation uses. Applications should be made to the Director, Office of Materials and Facilities, War Food Administration, Washington, D. C.

USE COPPER IN TRACTOR RADIATORS
Restrictions on the use of copper in farm tractor radiator fins and power takeoff gears have been removed by WPB. These uses of copper, particularly in radiators, not only will reduce time of manufacture of farm tractors, but will improve their field performance.

TIRE TUBE SUPPLY STILL LOW
Tire and tube quotas for January reflect the continuing shortage. The quota of 276,629 new truck tires is 13,890 less than the December figure, and the quota of 230,400 new truck tires is 27,787 under the December figure. Similarly, a lessening in demand which usually occurs during the colder months accounts for lower January quotas for farm tractor and farm implement tires and tubes. The tire quota is 27,600—lower by 4,600 than the December figure, while the January tube quota is 23,000—lower by 9,200.

CHEDDAR CHEESE FOR CIVILIANS
Civilians will continue to receive about 30 million pounds a month of cheddar cheese although manufacturers are required to set aside 30 percent of their output during January and February to meet war requirements. In addition to cheddar cheese, civilians receive almost all of the other types of cheese produced, bringing their total supply to about 45 million pounds a month.

RELEASE PEACHES TO CIVILIANS
Approximately 750,000 cases of canned peaches, previously set aside for Government purchase, have been released for civilian supplies and will reach some retail markets within a few weeks.

BEAN, PEA ALLOCATIONS FOR 1944
Civilians will receive 11,500,000 bags (100 pounds each) or half of the supply of dry beans allocated for all needs in 1944. Twenty-nine percent of the 1944 supply of dry peas—two million bags—also will go to civilians. This means civilians will have available an average of about 89 pounds of beans and 1.6 pounds of peas during the coming year. This is lightly larger than the per capita consumption of dry beans in the 1942-43 crop year and is a much larger consumption of dry peas than for any previous calendar year.

TO GET MORE CHILDREN'S WEAR
To insure sufficient production of infants and children's wear, the industry has been included by the War Menpower Commission in its list of essential activities. Also, WPB has ordered approximately 18 million yards of cotton fabrics set aside for the manufacture of certain specified items of infants' and children's clothing. Worsted and cotton yarn will be allocated for manufacture of knitted outerwear and infants' ribbed long hose, half socks, and anklets. Such goods will not arrive on retail counters until February and March.

NEW RULE ON ALIENS
An enemy alien who is a German, Hungarian, Rumanian, or Bulgarian citizen or national may be inducted into the armed forces of the United States and assigned to a war theater in which he will not normally be required to fight against fellow nationals or blood relatives, under revision of selective
