TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

NEW FARM GASOLINE RULES

To aid in the drive against the black market in gasoline, the Office of Price Administration announced that after April 1 the five-gallon "R" coupon will be invalid at filling stations and may be used only by those who buy gasoline at bulk plants or who have it delivered into storage tanks on their premises. Farmers buying most of their gasoline at filling stations have until April 1 to exchange at local boards their "R" coupons for "E" coupons, which will be accepted at filling stations. After March 15, "R" and "E" coupons in all cases must be endorsed whether for gasoline delivered into storage tanks or picked up at filling stations. However, to ease the task of endorsing these coupons, the consumer buying a large quantity of gasoline may endorse a whole strip or block of coupons with a single signature and address written across the required number of coupons given as a unit for his single purchase. For one gallon of gasoline he continues to endorse one "E" coupon.

REDUCES CEILING ON FLOUR

The OPA has reduced the ceiling on all enriched flour by five cents a hundred pounds. About 75 per cent of all family flour is enriched. PRICES ON USED PHOTO EQUIPMENT

Reconditioned used photographic equipment (still and movie cameras, projectors, lenses, range finders, etc.) must sell for no more than 75 per cent of the March, 1942, ceiling price of the new article, the OPA rules. A 30-day guarantee of free repairs and replacements of defective parts must accompany this equipment. Other used equipment sold "as is" must sell for no more than 33-1/3 per cent of the ceiling price of the new article and need not be guaranteed.

AMMUNITION SAVED FOR FARMERS

While it is possible that by fall there will be sufficient rifle and shotgun ammunition for game shooting, the WPB said that for the time being none can be spared from supplies needed by farmers to protect crops and livestock. No ammunition will be made available for amusement purposes.

ADDRESSING LETTERS TO SEAMEN

Many letters to seamen are being improperly addressed, often in violation of national security rules, the War Shipping Administration reports. The address of the steamship company, a specific street address, or a place name of a foreign country should not be given. The proper form to be used is—Seaman's name; name of ship; care of Postmaster San Francisco, New York, or New Orleans (depending on coast from which addressee sailed). The return address of the writer should appear in the upper left corner with the name of the steamship company in the lower left corner.

150,000 PLANES SINCE MARCH, 1941
Of the 150,000 planes produced by the United States since March, 1941, the U.S. has retained 122,000 for its own use and has shipped 28,000 to its Allies, the Foreign Economic Administration has announced. The Allies paid cash for almost 7,000 planes and received more than 21,000 under Lend-Lease. The British and Russians produce most of the planes they are using, but American Lend-Lease planes with British, Norwegian, Polish, Czech, and other Allied pilots are playing a vital role against Germany.

PROMOTE UNRATTIONED FOODS
To increase the consumption of unrattioned foods, the retail and wholesale food distributing trade

and the restaurant and hotel industry are conducting a campaign that will reach its peak during March and April. Foods to be specially emphasized are oranges, potatoes, eggs, breakfast cereals, enriched bread, soy flour and grits, macaroni, spaghetti, egg noodles, crackers, orange and grapefruit marmalade, peanut butter, and coffee.

ROUND-UP

Total U.S. war casualties as announced March 9 by OWI were 162,282—including 37,853 dead, 57,228 wounded, 35,565 missing, and 31,636 prisoners of war.

WBP announces that—the ban on two-trouser suits, trousers with pleats, vests with double-breasted suits, and other clothing production restrictions will not be eased. Restrictions on manufacture of such items as baby rattles and teething rings from nitro-cellulose plastics have been removed. Phonograph record manufacturers in the second quarter of this year may use one-fourth as much shellac as they used in 1941, due to increased supplies.

The Department of agriculture announces a 1944 goal of 22 million victory gardens, two million more than last year. Achieving the goal would mean 10 million tons of fresh food or 25 per cent more production than in 1943.

REMINDER

SHOES—Stamp No. 18 in Book One is good through April 30. Airplane Stamp No. 1 in Book Three is good indefinitely. Another ration stamp good for one pair of shoes beginning May 1 will be announced soon.

WHO MUST FILE DECLARATIONS

The following persons must file a declaration of estimated income and victory tax for 1944 on or before April 15—single persons (or married persons who have separated) who expect to receive more than \$2,700 of wages subject to withholding or more than \$100 from all other sources, provided total income is expected to be \$500 or more; married persons if they expect to receive more than \$3,500 of wages subject to withholding or more than \$100 income from all other sources, provided that their combined total income is expected to be \$1,200 or more or his total separate income is expected to be more than \$624. Blank forms are to be distributed by the Bureau of Internal Revenue late in March.

Morgan Protests Water Rate Boost

(Continued From Page 1)

who bale it and are shipping it to the coast markets. The section of the project north of the Malheur River, owing to long distances from the railroad, poor roads and many other factors, do not have even the shipper as a buyer.

I will admit that many of the water users did very well last year, although too much consideration should not be given the \$38 average cash acre return, as the cost of producing crops was terrific for the year of 1943. The average acre return of \$38 was due primarily to a few cash crops such as lettuce, beets, potatoes, and celery. I was told by one of the large celery growers that his celery grossed \$700 per acre, but with a very small margin of profit.

Our growers are willing and ready to pay water charges which will reimburse the government the entire cost of operation, but we do not think this is any time to levy assessments which are going to return to the government \$40,000 surplus or over.

We are still a new project and

many of the growers had their first taste of prosperity the past year.

I wish you would give this protest your earnest consideration and hope that you can reach the conclusion that the schedule recommended by Mr. Newell should be the one to prevail for the year 1944. Mr. Newell is on the ground, in close touch with the water users, and well acquainted with the local conditions, and I believe he has made a recommendation fair to both the government and the water users.

I hope for an early decision in this matter, as it will soon be time to make water deliveries. Very truly yours, Frank T. Morgan.
