Remember these three things about Dr. Hess Hog Special:

1. It supplies vitamin D in a very stable form, and hogs need vitamin D, especially in fall and winter when there is less and less sun.

2. It supplies minerals. Minerals that are essential for bone and tissue development. For good growth, plenty of framework, and good gains.

3. It supplies tonics that aid digestion and assimilation of feed. Especially important today when there is a scarcity of protein supplement.
