TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

TOWN AND FARM
PLENTIFUL FOODS DURING AUGUST
Foods expected to be plentiful throughout most of the Country during August, according to the War Food Administration, are fresh tomatoes, fresh peaches, peanut butter, citrus marmalade, canned green and wax beans, frozen vegetables, frozen baked beans, dry-mix and dehydrated soups, oatmeal, wheat flour and bread, macaroni, spaghetti, noodles and soya flour, grits and flakes.

WHERE IS YOUR SHARE?
Of the eight million tons of paper needed for salvage in 1944, the War Production Board says 38 percent is in hiding in American homes and farms, while the other 62 percent is to be found in the files and store rooms of American industry. If the Boy Scouts or the Girl Scouts don't find those home-hidden hoards of waste paper before next Fall, school children hope to dig them out.

VICTORY GARDENS FOR FALL
WFA wants more Fall victory gardens, especially in the South where late Summer planting of lettuce, cabbage, kale, beets, spinach, turnips, collards and carrots will produce fresh produce until the ground freezes. WFA wants to increase the victory garden harvest 25 percent.

HORSES AND MULES "DEMOBILIZED"
Mechanization of the Army resulted in a surplus stock of 17,000 horses, an Office of War Information report on surplus war property shows. Dealers bought the horses at sales and sold three-fourths of the same to farmers. Between 600 and 700 mules, also displaced by Army mechanization, have been auctioned off.

GASOLINE FOR THOSE ON LEAVE
Members of the Armed Services will get a gallon of gasoline for each day of their leave or furlough up to 30 gallons, according to a new Office of Price Administration policy. No ration will be granted for passes, for liberties or for leaves or furloughs of less than three days, at the suggestion of the Army and Navy. The member of the Armed Services should apply for gasoline rations to the War Price and Rationing Board having jurisdiction over the automobile he is to drive and he should present proper leave or furlough papers.

CUT FIRE WOOD TO SAVE COAL
Every extra cord of fire wood American farmers supply for fuel can save from one-half to a ton of coal, WPB advises. Coal supplies this year will be short and vitally needed by essential war industries.

SOME NEW SCHOOL BUSES AT LAST
After almost total lack of new school buses for two years, WPB approved a 1944 production quota of 5,000, of which more than 2,400 already have been released to schools where new buses were needed to prevent absences and replace unsafe equipment, the Office of Defense Transportation reports.

FACTORY-DAMAGED SHOES
Mr. Consumer may be lucky enough to get a pair of factory-damaged shoes without a shoe ration coupon and for no more than \$1.80 a pair, if his shoe dealer happens to have some such shoes on hand and obtains permission from the OPA District Office to sell them unrationed. The dealer must apply for the release of these factory-

damaged shoes before August 31. But there is no time limit on the sales after the dealer has received the OPA non-rationed stickers and attached them to the shoes.

BUTTER STOCKS WERE MELTING AWAY
The recent hike of four ration points a pound on creamery butter was made necessary, OPA says, because civilians were buying in excess of their allocations for civilian supplies and were thus threatening equitable distribution by reducing wholesalers and retailers stocks. Processed butter continues at four red points a pound and farm butter at eight red points, while creamery butter now requires 16 red points a pound.
