

3RD NOXIOUS WEED DISTRICT FORMED

Malheur county's third noxious weed control district has been established in the Nyssa area, by an order of the county court.

Control of noxious weeds, including morning glory, Canada thistle, Russian knap weed, and blue flowering lettuce, will be mandatory in the area in the future, with complete eradication as the goal.

Two other weed control districts, one on Oregon Slope and one between Ontario and Cairo, were established a number of years ago.

INDUSTRIAL EXPANSION

The state is due for signal industrial expansion in postwar days, the findings of John Kelly, executive director of Oregon's post-war readjustment and planning commission reveal.

The fact that more than 44,000 upstate residents now in the Portland area have indicated that they will return to their homes when the war emergency is over is taken to mean that possibilities of heavy unemployment in the immediate postwar era are materially decreased.

Eight counties of the state have not yet filed their programs with the state commission, Kelly says. WAGE PYRAMID Just released is a survey of the annual earnings of Oregon workmen recently completed by the state unemployment compensation commission covering the years 1943 and 1944 based on wage credits from October 1, 1941 to September 30, 1943.

FIGHTERS BALLOTS Oregon county clerks are well along on their job of sending general election ballots to the 42,000 servicemen who have applied.

Revival in Marshall Islands

MARINES MAKING MANY CHANGES ON SAIPAN ISLAND

Saipan, Marianas Islands (Delayed)—It has been just three months since the first assault waves landed on Saipan's beaches, but already American industry has made so many changes and additions on the island that it's hardly recognizable.

It's hard to tell now which are the roads we put in and which were here before, for the bulldozer takes little time in carving new ones.

This is the rainy season in Saipan, and many of the roads are seas of mire. But they are forever being improved—and quickly, too.

Foxholes have given way to established camps, with tents neatly lined and paths sanded and marked. Many of the camps already have electric lights, and those that don't are equipped with gasoline lanterns.

Entertainment is a big factor now, and movies are erected everywhere. Saipan's own radio station, WXLJ, rebroadcasts programs from the United States daily.

Marines, now wearing clean khaki in place of battle-dirty dungarees, are even beginning to admit the scenic beauties of Saipan. The caves and mountains offer remarkable coral formations, and there is a natural arch well worth seeing.
