SHOES Airplane Stamps 1 and 2, good indefinitely. Airplane Stamp 3 becomes good November 1 and remains good indefinitely. HOUSEWIVES CAN AID CEILING DRIVE Housewives everywhere are urged to cooperate with their grocer in a campaign to more prominently display ceiling prices in stores and to stimulate the use of price lists by consumers. The Price Administration in cooperation with leading grocer associations and consumer organizations is seeking to have shoppers talk more fully and frankly about ceiling prices as a major means of strengthening community efforts to hold down living costs. FRESH CRANBERRIES CEILING SET The highest retail price for fresh cranberries for that holiday dinner will be about 41 cents a pound, according to OPA, which has established cents-per-pound retail mark-ups on this product effective October 26. Group 1 and 2 stores, doing an annual business of less than \$250,000 are given a mark-up of 10 1/2 cents a pound, and group 3 and 4 stores doing a yearly business of more than \$250,000, are given a mark-up of 10 cents a pound. LAKE HERRING PRICES SUSPENDED Retail ceiling prices of fresh lake herring have been suspended, effective October 26, OPA announces. The action follows indications that the price of this fish will be generally below the 1942 price levels, which was the minimum level required by the Stabilization Extension Act for fishermen's ceiling prices. However, OPA said that if fresh lake herring prices should rise about 1942 levels ceilings will be promptly reset. SHOE RATIONING STILL NEEDED Present inventories and the present rate of production of shoes show the necessity for continued shoe rationing, the OPA and the War Production Board report. The statement pointed out that over-all production of civilian shoes of rationed types in the first half of this year was 134,005,000 pairs contracted with 154,125,000 pairs in the like 1943 period, which was also short of needs. OPA GRADES GASOLINE QUALITY Gasoline sold at service stations and other retail establishments at ceiling prices set for premium grades must meet a minimum octane specification of 75, OPA announces. This action has been taken to protect buyers from any attempt to sell lower grade gasolines at the higher ceiling prices established for premium grades. OPA said most sellers are offering premium grade gasoline having an octane rating not lower than 75. The announcement pointed out that at present the Petroleum Administration for War does not permit manufacture of gasoline for civilian commercial channels as premium grade to exceed 76 octane—a step necessary to maintain military supplies of higher octane fuels. COURT HITS BLACK MARKET "GAS" Efforts of the OPA to wire out the black market in counterfeit gasoline coupons were greatly strengthened by decisions in three injunction cases recently handed down by the United States District Courts in Greenville and Greenwood S. C., Thomas I. Emerson, Deputy OPA Administrator for Enforcement, said. The decision makes clear the obligation of gasoline distributors to refuse to supply gasoline to dealers who have failed to surrender valid coupons to replace counterfeits for which they previously cut off supplies of a dealer who has obtained gasoline. This obligation is not made good any invalid coupons in binding on the supplier, regardless of any contract with the dealer, the court ruled. DECEMBER 1 GIFT MAIL DEADLINE December 1 is the deadline requested by the Post Office Department for mailing Christmas gifts inside the United States. Every citizen who is playing Santa Claus for loved ones and friends in other towns is urged to get that present in the mails by that date to assure proper delivery. The reason, say postal officials, is that Americans are expected to mail domestically 25 percent more gifts than a year ago—and at a time when the post office has fewer employees and less well-trained holiday help than ever before. In addition, the fact that more people have moved to different addresses to do war work is expected to mean that the average distance traveled by each gift will be greater than before the war. CHRISTMAS STREET LIGHTING BAN The Office of War Utilities of WPB is asking city officials, civic clubs, chambers of commerce, merchants and citizens to dispense with outdoor lighting this Christmas, as was done in 1942 and 1943. Object of the request is to reduce electricity consumption and coal require-
