NAVY DAY OBSERVANCE URGED Governor Earl Snell has urged the observance of October 27 as the annual Navy day in celebration of triumphs of the fighting American fleet and in particular tribute to the men of the navy from Oregon.

NAVY DINNERS AND LUNCHEONS are being arranged in many communities and others are planning programs and parades. The date marks the anniversary of the presentation of the bill for creation of an independent navy to the Continental

congress in 1175. It also is the 86th anniversary of the birth of Theodore Roosevelt, widely credited with being the father of the modern American navy, now the most powerful in the world.

LIGHT ON HEARING AIDS "Many war veterans already are returning with affected hearing," observes Governor Earl Snell who calls attention to the National Hearing week, October 22-28. In Oregon, the period will be devoted to a campaign to further acquaint the public with facilities provided for aid to the deaf through local chapters of the American Society for the Hard of Hearing.

PREVENT PROHIBITION DEFEAT THIS "BURKE BILL" WITH ITS DANGEROUS "JOKER"!

Don't take anyone's word for it! Read the bill itself! See how the insertion of one word—the word "GIVE" in both the title and body of this bill affects your very freedom. Will you be able to serve your guests either at your social club, or in your home under this bill? NO! Do you want this dangerous type of prohibition? NO!

THEY DID IT ONCE IN 1918... THEY'RE TRYING TO DO IT AGAIN IN 1944 VOTE 313 X NO!

Voters Of Malheur County

Your experimental station is investigating the following problems.

- 1. Cattle fattening, using sugar beet by-products. 2. Fertilizer trials on sugar beets, alfalfa, corn and cereals. 3. Testing hybrid field corn varieties. 4. Vegetable seed production. 5. Soybean culture. 6. Cover crops and green manure crops. 7. Irrigation studies on new land. 8. Dates of planting for cereals, beans and corn.

As a result of information already found on some of these problems, Malheur county has been benefitted to the extent of thousands of dollars in additional income. This farm was purchased "on the cuff" and experimental operations were started three years ago in the belief that the people of Malheur county would vote appropriations to cover its purchase. We believe if the voters had fully understood this measure it would have passed two years ago. Let's not make a mistake this time.
