Pills and Powders:
COMMON COLDS

Colds probably surpass in frequency all other disease conditions. When you have a cold, do not take the cure-all advices of friends, but consult a physician, who has devoted years of time to the study of human ills. Take his professional advice and follow it.

Your physician will gladly telephone your prescriptions to us if you will elect our pharmacy to do the compounding. The confidence placed in us by these professional men suggests a strong reason why we should be your prescriptionists.

The Malheur Experimental Station
Referred to the people by the Malheur County Court

A bill to provide funds to purchase the Malheur Agricultural Experimental area farm, for the improvement of Malheur county agriculture to be operated in conjunction with the Oregon State College experiment Stations, and authorizing a special tax levy of one mill for the fiscal year, 1945-46 and one-half mill for the fiscal year 1946-47, for this purpose.

This is as the measure will appear on your ballot next Tuesday. A vote of YES will secure the future of the Malheur experimental farm. If the measure is defeated we will not only lose the farm but we will also lose the appropriation made by the state for maintenance and operation.

To Vote YES will be a good stroke of business for the county. The 120 acre farm which forms the experimental area was purchased on contract for \$15,000 and is now worth much more than that owing to the improvements made during the past two years, coupled with the advance in land values.

Vote 318 Yes
