ARMISTICE DAY HAS VALUE

The belief is becoming prevalent throughout the United States that observance of Armistice day is meaningless because our boys and men are fighting over the same ground that their fathers battled over 27 years ago.

It does seem now that world war I was rather futile, but our soldiers and sailors died in that struggle in the belief that they were helping to preserve democracy and their memories and their deeds are entitled to our respect. They did fight for the preservation of democracy, but the democratic system of government has not been removed from the threat of dictatorships.

Armistice day can never be meaningless to us if it brings to our attention the folly that permitted a second world war, the stupidity that allowed rearmament in Europe and the greed that keeps the fiery cauldron of war kindled.

We are paying the price of that folly now on the battlefields, in our factories and in our homes. When this war is over we will again have an opportunity to preserve democracy, but if we heark back to the days of 1918 we realize that we have a lot of groundwork to do if we are to achieve lasting peace after this war.

Buena Vista

Mrs Willis Bertram returned this week from Yakima, where she had been visiting.

Lester Cleaver killed a buck deer.

Those who attended the skating party at Fruitland Saturday evening from his district were Edward and Irvin Topliff, Bob, Donna, Thelma and Dorothy Florea, Delbert Cleaver and Donna Belle and Alva

Goodell, Jr.
Mr and Mrs George Cleaver, Mrs Lester Cleaver and children and Mrs Loyd Cleaver were in Ontario Thursday.

Mr and Mrs Elmer Cloninger of Portland called at the Alva Goodell home Sunday morning.

Mr and Mrs C. C. Wyckoff and Betty, Barbara and Jean of Baker called at the Ray Griffith home Tuesday.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

OPA TO HELP LOCATE CARS

Holders of certificates for the purchase of new cars can get help from the Office of Price Administration in locating that automobile, that agency announces. Any certificate holder having difficulty in laying hands on a car is urged to write to OPA, Inventory and Control Branch, Empire State Building, New York, 1, N. Y. The records of that office will be made available to assist the buyer in locating an automobile.

At the same time OPA will require all automobile dealers to post lists of their current inventory of 1942 cars held for sale and dealers who refuse to sell to a buyer who has the cash and required papers may be barred from dealing in any cars rationed now or in the future.

NOVEMBER TIRE QUOTA INCREASED

The November quota of new automobile tires allocated by the War Production Board will be 1,850,000 or 250,000 more than in October. It is announced by the Office of Price Administration and War Production Board. "As near as we can tell, this quota should satisfy normal November replacement needs of eligible 'B' and 'C' ration holders," Max McCullough, Deputy OPA Rationing Administrator said. He pointed out that the ration quota this month makes it "clear that recapping will still be necessary for most motorists if they are to keep their cars in operation." Unfilled "B" and "C" tire applications, needed increases in dealer inventories and a higher production rate are required before "A" ration holders can expect new tires.

PAPER SHORTAGES TO CONTINUE

The public can expect no relief from existing paper shortages until about the middle of 1945 because of the heavy wartime requirements of newspaper, magazine and book paper and the manpower shortages in this industry the War Production Board reports.

OPA CONSUMER NOTES

The basis for a nation-wide reduction of consumer prices on cooked corned-beef—expected to be at least 10 cents a pound and greater in some instances—was set by issuance of OPA specific dollar-and-cents ceilings for this product at the wholesale level.

Primo cheese prices at all levels of distribution will be three cents a pound higher after this week as a result of OPA action to relieve hardship suffered by manufacturers under the previous price ceiling.

Ceiling prices of plug chewing tobacco have been increased by 20 percent at all sales levels as a step to help manufacturers overcome the increased cost burden under which they operate.

Buyers of coal and other solid fuels are entitled to receive from their dealers an invoice, sales slip or receipt that contains full information about the kind of coal sold to them and the price paid. This is required of dealers by an OPA provision effective November 11.

MOST BOX MATCHES TO ARMED FORCES

Hold that light, mister, will continue to be the popular phrase in coming months, according to a War Production Board report which states that about 90 percent of all penny box matches and 25 percent of all book matches produced in the next six months will be delivered to the Armed Forces. Although few penny box matches will be available to civilians during this period, matches of the household "strike anywhere" type will be produced in sufficient quantity to meet all civilian needs, WPB said.

ARMY DOCTOR RECRUITMENT ENDED

Recruitment of civilian physicians for the Army has been discontinued according to information received from the War Department by Paul V. McNutt, Chairman of the War Manpower Commission. At the same time, Mr. McNutt said that recruitment for the Navy must continue since it has urgent need for approximately 3,000 additional medical officers. The Public Health Service of the Veterans Administration are also continuing to recruit physicians.

LESS DUSTY ROADS IN PROSPECT

Prospects of less dusty intermediate and county roads next spring and summer are decidedly improved as a result of action by the Petroleum Administration for War in permitting the use of residual fuel oil for road building and maintenance. The permission applies to all parts of the country except the West Coast. This action is possible because of current supplies of residual oil. The restrictions were lifted at this time to permit states, counties and local governments to plan next year's road programs now.

SHIPS NAMED AFTER GREAT AMERICANS

The names of three great Americans, Wendell L. Willkie, George W. Norris and Alfred E. Smith, will be honored by being given to three new Liberty Ships now under construction. It is announced by the United States Maritime Commission.

WAVES RECRUITING REMAINING OPEN

The program for enlisted WAVES has not been closed, and the need for WAVES is still urgent, it is emphasized by Rives Waller, of the Baker Navy Recruiting station. The quotas are wide open and will remain so for the balance of the year. Beginning January 1, 1945, however, the quota for enlistments will be substantially reduced and only a comparative few applicants will be accepted.

The WAVES program for officer candidates has been closed with the exception of a few women who have specialized training such as doctors, dentists and occupational therapists. It is the policy to advance qualified enlisted personnel.

Young women who have planned to enlist are advised to make application before the quota is filled, as it will be extremely difficult to join after the first of the year. All expenses are paid from any place in this section if the application comes through the Baker Navy Recruiting Station. Applicants may write direct to the station in Baker or contact a navy recruiter while traveling through the territory. The following schedule is followed closely: Baker office open at all times, and at Ontario every Thursday at the post office.

OPEN HOUSE HELD AT IDAHO COLLEGE

College Of Idaho Nov. 9 (Special) Open house was held Saturday evening at the dormitories at the College of Idaho when the public was invited to view the improvements which have been made this year on the campus.

At Voorhees Hall coffee was served and Ilene Shirashi of Adrian house vice president, poured. Tea was served at Pinney Hall. All the rooms were open for inspection and among the improve-

ments that were noted this year are the new drapes and reupholstered furniture in both parlors. All the rooms in both dormitories have been rekalsomined and repainted and new light fixtures have been installed.

EXPERIMENTS DONE ON SUGAR BEETS

When asked what the experiment station was doing in the way of sugar beet work, Dudley Sliton superintendent, mentioned the following things: "For three years we have carried on a beet spacing trial and we find that the best spacing is 12 to 14 inches. In other words you get more tonnage of even sized beets than at any other spacing. We have the series of fertilizer trials set up to get the long time picture on what sugar beets do to the soil both with and without fertilizers. We are finding that combinations of certain fertilizers are better than others. We are applying phosphate, in the fall, in the spring, in different ways, and different amounts per acre to find when is the best time to apply and how much to use."

Sliton said that after four more years of work he will have a pretty complete picture on the sugar beet as one crop in a good farm rotation. At the present time lots of barnyard manure, as a fertilizer, seems to give the most satisfactory results.

MOST TEACHERS IN ASSOCIATION

A big majority of the Malheur county teachers have joined the Oregon State Teachers Association, Mrs Harriet Brumbach of Adrian, secretary of the Malheur county unit, revealed this week.

Of the 174 teachers in the county, 146 are members of the organization. Others are joining and it is expected that the membership will reach 100 per cent in the near future, Mrs Brumbach said. Of the larger school systems in the county Vale, Nyssa and Adrian report 100 per cent membership. Other large systems are expected to complete their membership drives in the near future.

Membership in the state organization includes membership in the National Education association.

CAMP RESIDENTS ENTER SERVICE

Among the boys leaving Nyssa November 8 to enter the armed forces were eight residents of the Adrian war food administration camp.

The youths are Tai Funatake, Kunio Huiga, Masateru Jio, Joe Konishi, Ted Matsushita, Samuel Nishi, Kei Okano and Katsunori Sakamoto. Nishi is the fourth son from his family to enter the army. Another family living in the camp has three sons in the army, two of them now in France. Several of

the Adrian camp families have members serving in the Pacific area. One girl is serving in the WACS. The Sunday morning worship service in the camp church was in the form of a farewell for the boys. The Rev. Taro Goto of Ontario was the speaker.

Nyssa Funeral Home

LET US PROVIDE A HOME MARKET FOR YOUR FAT HOGS
Sell where there is no commission to pay, no shrink, no unnecessary expense incurred through a great number of men required to handle your hogs and where you can see and check the weight of your hogs yourself.
We buy hogs every Friday at the stockyards in Nyssa, Ore. and Homedale, Idaho.
For Friday's price phone 111 R, Nyssa, between the hours of 5 P.M. and 9 P.M. on Thursdays or 53JLJ, Homedale, on Friday.
FRANK KULLANDER

Plan Your Meals With Care

A well planned meal is already half prepared. One hard and fast rule in the game of eating for health is that all of the essential food materials must be provided somewhere in the three meals eaten daily. The foods which provide them are the "must" foods. Milk provides protein, carbohydrates, fats, minerals, vitamins and water.

Shelton's Dairy

We Know It

We know that at times during extreme weather we cannot give you the quick service we used to give and the individual attention you would like to receive.

We know we are doing everything possible with our undermanned organization to keep everyone rolling.

We know we are sometimes out of parts and someone's badly needed car or truck is tied up and the war effort suffers. Every "bogged down" car or truck congests the traffic load along the line somewhere.

We know that every man we have is working harder than he ever worked before in an industry that has been declared vitally essential, because America moves on wheels.

But, we know too, that we have done everything possible under the circumstances to do our part and keep our doors open so that your car or truck can keep going through this emergency.

And we also know that the lessons this war has taught us about service will more than repay our patient customers when victory is ours and we "retool" for peace.

Moss-Ninemire Motor Company

Myers Pumps For Deep and Shallow Wells

MYERS—famous for leadership in pump engineering and design—brings you an improved pump with new high performance standards.

New efficiency and new reliability are achieved by exclusive features and advanced designing. A remarkably effective new air charger eliminates water-logged tanks.

We have on hand one-fourth, one-half and one horsepower sizes.

STUNZ LUMBER CO.

People Ask Us...

Why do people have to wait to get Telephone service?

Diversion of telephone manufacturing facilities for war stopped production for civilian use. Service orders connected with war, public health and safety, are being handled promptly, but other orders necessarily depend on the release of facilities through disconnections.

Why do I have to take a party-line?

With more people wanting telephone service than ever before and telephone materials gone to war we've had to "stretch" our present equipment to serve as many as possible. We'll be glad, too, when we can give everybody the kind of service desired.
