AT THIS TIME of resolution-making it might be apropos to recall the words of a wise old philosopher of a long forgotten era. He said:

"Every first of January that we arrive at is an imaginary mile-stone on the track of human life; at once a resting place for thought and meditation and a starting point for fresh exertion in the performance of our journey. The man who does not propose to himself to be better this year than he was last must be either very good or very bad indeed."

We wish you a very Happy New Year
