

SALARY BOOSTS

Bills raising the salaries of 13 top state officials have been passed by the house and sent to the senate. The bills would boost the annual salary of the governor from \$7500 to \$9000, the salaries of the secretary of state and the state treasurer from \$5400 to \$6000, the attorney general from \$5000 to \$5750, the seven justices of the supreme court from \$7500 to \$8000, the labor commissioner from \$4000 to \$5000, the superintendent of public instruction from \$4200 to \$5000 and the deputy secretary of state from \$4200 to \$4800. None of the officials asked for a raise. Some of the salaries will be as large as that of General Eisenhower, who gets \$8050, one house member stated. All increases will total less than \$10,000 a year.

COMMITTEES ELECTED

The senate's six man interim committee to act on conformation of appointments made by the governor during the 22 months interval between legislative adjournment and the opening of the 1947 legislature has been elected by that body. The members elected are: Senators W. H. Strayer, Baker; Earl T. Newberry, Ashland; Angus Gibson, Junction City; H. C. Wheeler, Goshen; Dean Walker, Independence; William E. Walsh, Marshfield. Senator Strayer is the only democrat on the committee.

LIQUOR FUMES

Governor Earl Snell has signed a bill appropriating \$25,000 for a liquor control commission investigation. The money will come out of liquor profits and not out of the general fund. It is generally conceded here at the legislature that the investigation will reveal that the commission was warranted in making the distillery deal in following out the conditions demanded by the law that the type and quantity of liquor demanded be secured in order to head off black market activities and secure profits for old age assistance. The deal under investigation will yield profits of \$1,500.

Comment of one august senator on the liquor investigation: "I was a member when the Oregon liquor control commission was created. Since the senators have voted \$25,000 for an investigation of the commission they should investigate the sanity of the members who put the state in the liquor business."

TAXES AND EDUCATION

In urging attendance at the public hearing on educational and school tax measures Governor Earl Snell made clear and emphasized his policies relating to schools and taxes, saying, "Our schools and our teachers are charged with responsibility of training the youth of our state—boys and girls today but men and women of tomorrow who will be occupying places of responsibility in the social, economic and political affairs of our state and nation. The necessity for adequate state support, equalization, adequate teacher compensation and retirement is obvious to all, I am sure."

"I endorse the plan of additional funds for state support from the income tax surplus and I believe equalization measures to be important and necessary. I go a step further also in believing that a sound stable, long-range program of adequate support of schools is imperative. Provision should be made for emergency relief."

CAPITAL SHORTS

Four sheets as the showboat feature of this session of the legis-

lature the civil rights bill faded out with an interesting preview in the senate. The galleries and main floor of the senate were jammed with an expectant crowd obviously disappointed when the bill, after a colorless debate was killed by a vote of 24 to 6. No senator dodged the vote. Disabled War Veterans and Veterans of Foreign Wars protest the creation of the office of state director of veterans problems as the state already has established agencies covering most veterans problems. The private ownership vs. public ownership of public serving utilities fight is being revived by discussion over the bill to prevent peoples' utility districts from serving outside their boundaries without consent of prospective customers. Inmates of private institutions are eligible to receive old age assistance, rules Attorney General Neuner.

The state's absentee soldier ballot was used at a ratio of 11 to 1 over the federal ballot by soldier-citizens in the November election, the state elections department has just announced. The total number of state ballots used and returned to be counted in Oregon was heavier than contemplated by 20 per cent, the total, 30,336. The total of the federal ballots was only 2618.

LETTER to the EDITOR

Dear Mr. Editor:
I agree with the "decent citizen" and in part with Mr. Thompson. Nyssa has lots of good and wonderful people, but what I can't understand is why these good people tolerate so many dark spots in

their fair city.

Now as to Mr. Thompson's Sunday school lesson. Either he misunderstood his teacher or the teacher misunderstood the Bible. For Jesus did not only watch himself; He cleansed the temple, not once, but twice. He said, "Go ye into the world and preach the word to all peoples." That would include all dark and smoky joints on Main streets open even on Sunday and the cabins in campgrounds and shady homes. The word is opposite vice.

From another decent citizen that Mr. Thompson would like to see railroaded out of town.

SCOUTS PRAISED BY STETTINIUS

Secretary of State Edward R. Stettinius, in a message to the Boy Scouts of America, on their 35th anniversary, observed from Feb. 8 to 14, sent his "sincere commendation for the many achievements" of its 1,800,000 members "in helping to win the war against axis through outstanding service on the home front."

The tribute of the secretary of state was received by Dr. Elbert K. Fretwell, chief scout executive of the Boy Scouts of America.

The message follows:
"On this 35th anniversary of the founding of the Boy Scouts of Am-

erica, my greetings carry sincere commendation for the many achievements of your membership in helping to win the war against the axis through outstanding service on the home front.

"The theme you have chosen for this anniversary celebration, 'Scouts of the World—Brothers Together', indicates the equal determination of all those identified with the Boy Scout movement to work toward the ideal of true friendship among all peoples as the ultimate guarantee of peace and freedom for the nations of the world."
