Stymie Law

On V-Day, when fighting ends and the peoples of a plundered world begin shouting their joy and gratitude in a thousand tongues, aerial bombs and floating mines are going to seem pretty cheap. All treacherous and destructive machines will appear in their right light again. Their values will show as minus quantities. Then slow, cautious men will set to work getting rid of them.

But there are instruments of war more treacherous than floating mines, more ruinous than any block-buster ever devised. Uncle Sam will have one of these on his hands when war ends unless Congress does something about it. It is trained on American factories and farms now, ready to start a bombardment on Armistice Day and nothing can eliminate the serious menace but new legislation.

Congress Can Save.

The United States has a law against progress. It was not enacted to stop scientific and industrial development but, if it stays on the statute books in peace time, even for a short while, it will be a government freeze of creative work. It was passed five years ago to raise money for national defense and keep war-mongers from profiteering on the misfortunes of other people.

I am not criticizing the purposes of the act. America had to raise revenue quickly for defense, and right thinking people did not want to see a new crop of war-lords enriched with blood-money. Just the same, there ought to be a new act, worded to take effect on the day of victory, repealing certain provisions in the 1940 tax law which are war measures, ruinous to any people at peace.

Kills New Business.

The sense of the law is this: Add up all the profit a firm made in four pre-war years, 1936-1939 inclusive; figure 25% of the total and call it a sample pre-war year's profit. If a corporation earns more than that in any year of war, it must pay the government 85% of the difference in a special tax.

Small business concerns can't grow if the law stands. Really big corporations can escape being devastated. Some will want to expand further and can't, but they can stay big. Here is why: by percentage, not much of a giant corporation's business is ever new business; its profits (however big) grow slowly. Small firms, not so. What will be the net result?

Service to Humanity.

Thrifty little enterprises like you and I might form will be paralyzed. They can't expand because their dollars of increased profit will be split two ways, 15c to keep, and 85c for the government. Many will die, as losses on development of new products wipe out their meager capital. Huge firms, which have no need for substantial growth, can develop new products with no risk to their strong financial position.

A big company's losses on new developments can be used to reduce taxes on profits from old business. In this way, government pays more than four-fifths of such losses for big concerns. It must be remembered, however, that big corporations are too few to solve the nation's post-war employment problem.

Small companies employ more than 80% of the nation's workers. They handle the lion's share of our national income. What their employees eat makes farm prosperity. If these little firms see a chance to earn a profit, they will get ready for peace... new business and new jobs in large numbers. But if until V-Day they remain scared to expand, America is stymied and so is the world.

Baker Bulldogs Take Pennant

(Continued from Page 1)

then connected for another counter that made the score 30 to 28. Baker jumped into another lead on field goals by Ballantyne and Johnson, but Bellon came through again to shave the Baker margin to four points. Toombs entered the game to replace Moore, who was ousted on fouls. Billings connected for a basket and Baker started stalling with a two-point lead. Bellon grabbed the ball and ran down the floor for a field goal. He was fouled as he tied the score with a half minute to play.

Bellon missed the foul shot, but registered on a field goal to give Nyssa its first lead of the game. As the spectators watched the time clock on the wall, the visiting Bulldogs made a desperate effort to tie the count with several unsuccessful shots. Ballantyne shot the ball at the basket as the gong was sounded and the ball swished through the net to tie the score at 36-36. The referee allowed the field goal and announced that a three-minute over-time game would be played.

Gerry scored a field goal at the very first of the over-time period to give Baker a lead. The referee called a technical foul on Nyssa for a man in the crowd doing too much talking, but Ballantyne of Baker missed the chance. As the Nyssa let-down came, Carpenter made another field goal for Baker and Billings scored for Nyssa, making the count 40 to 38.

Baker players were Gerry, Johnson, Carpenter, Peterson, Ballantyne, Calderwood and Henderson. The Nyssa lineup consisted of Bellon 21 points, Billings 9, Church 2, Steink 4, Moore 2 and Toombs.

Beautiful Scene Shown At Ball

(Continued from Page 1)

huge calendar, and as each part of the program was presented the "Little New Year", Bobby Williams would tear a sheet from the calendar, predicting coming events.

The program was given as follows: Vocal solo, "Carmen Carmella" by Lois Anderson; New Year's day, the girls glee club sang Jingle Bells; Valentine's day, Let Me Call You Sweetheart, as waltzers danced; St. Patrick's day, When Irish Eyes Are Smiling, as girls clad in short green skirts and white blouses did an Irish dance; Easter, Melvin Melow sang Easter Parade, as girls in Easter bonnets and suits paraded along the stage; Independence day, Scouts, representing soldiers doing the old-time fife and drum trio of George Washington's time; Labor day, members of the boys glee club, clad in soiled working garb and holding rakes and hoes sang I've Been Workin' on the Railroad; Hallowe'en, dancing and singing act; Thanksgiving day, Claudine Tomlinson sang God Bless America, and Christmas, girls glee club sang White Christmas.

The singing and music played by the orchestra during the evening was under the direction of the school music instructor, Irshal Davis, who also arranged the music for "Pre-view of American Holidays".

Prizes were awarded to Joan Matheny and Mrs. Cora Tomlinson. The ball was sponsored by the Girls' league, with Ada Haworth as advisor and Claudine Tomlinson, president.

Committee chairmen were as follows: General chairman, Jean Snader; decorations, Twyla Crawford; program, Hisako Kido; clean-up, Marjorie Merrick; program

LOCAL NEWS

Attend Salt Lake Funeral—

Bishop Child and his father, Leo Child, attended a funeral Monday in Salt Lake City for Mr. Mingus, brother-in-law of Leo Child who was killed in an auto accident.

Purchase House Here

Mr. and Mrs. Gordon Ray have purchased a house on Sixth street and will take possession as soon as painters have finished redecorating. They plan on enlarging Gordon's market, using the rear space for storage instead of an apartment.

Go To Virginia—

Mrs. Blair Hendricks and Miss Vera Anderson left Sunday for

Virginia, where Mrs. Hendricks will visit her husband, who is in the armed services.

Ontario Here—

Mrs. W. E. Snader of Ontario was in Nyssa Friday and Saturday, staying at the home of Mrs. Jacob Simmons. She came to attend the coronation of her daughter, Jean at the Cinderella ball.

Here From Ogden—

Mrs. Richard Baker and two children of Ogden spent the last two weeks visiting at the home of Mrs. Baker's sister, Mrs. Dave Mitchell.

In Ontario—

Mrs. Eldon Stringfellow and Mrs. Sidney Brown spent Saturday evening shopping in Ontario.

THIS TAKES GOOD MANAGEMENT!

It's a neat feat to navigate a windy corner with a pile of packages and keep skirts down to a modest level.

We're facing a somewhat similar problem during these stormy war years — carrying bigger power loads, higher costs, heavier taxes — and still keeping prices at low pre-war levels.

We're rather proud that electricity hasn't been rationed and hasn't gone up, like so many household necessities. In fact, the average family actually gets about twice as much electricity for its money today as it did 15 years ago.

This takes good management, too.
