8 p.m., evangelistic service.

BAPTIST CHURCH

Second Street
E. T. Larson, Missionary Pastor
Sunday school, 10 a.m.
Morning worship, 11 a.m. Subject "Scriptural Baptism".

Buena Vista

Mr. and Mrs. Glenn Hoffman, Mr. and Mrs. George Cleaver and Mrs. Loyd Cleaver and Linda were in Ontario Tuesday.
Those from this district who attended the graduation exercises in Nyssa were Mr. and Mrs. S. B. Hoffman, Mr. and Mrs. Alva Goodell and Alva, Jr., and Donna Belle and Edward and Irvin Topliff.
Mrs. Glenn Hoffman was hostess to the Out-Our-Way club Thursday afternoon. Eight members answered roll call with "something outstanding about your mother". Mrs. William Smiley and Mrs. James Stephen were guests. Mrs. George Cleaver and Mrs. H.

Sunset Valley

Mr. and Mrs. R. Roberts, Sr. and Charlie Chritton were business visitors in Ontario Tuesday.
John Barnett of Nyssa hauled horses and cattle to pasture near Roswell, Idaho for Robert and Leslie Ditty Tuesday.

Mr. and Mrs. O. P. Council of Nyssa have moved into the government house. Mr. Council is the ditch rider for this section, taking the place of Warren Blodgett.
Barbara and Jean Barrett have returned to their home at Mountain Home, Idaho after spending several days visiting Mr. and Mrs. Grover Cooper.

Those graduating from the eighth grade this year are Marion Price, Kenneth Price, Phyllis Wolfe and Jacquelyn Wilson.

Mr. and Mrs. Charles Ditty motored to Vale Monday to attend to business.

Olaf Fillingness is having a well drilled on his place on Klamath avenue.

Rev. and Mrs. R. L. Casselman and daughter, Janice, were visitors in the Frank Evans home in Nyssa Friday.

Tomiko Wada of Vale spent the week-end with her sister, Mrs. Jesse Nishi and family.

Mr. and Mrs. Ora Newgen, Mr. and Mrs. Bob Newgen and Mrs. Leonard Newgen were shoppers in Boise Monday.

Mrs. Kenneth Lorenson visited her daughter, Mrs. Don Parker, and family in Cow Hollow Sunday.

Willard Whitman purchased an Oldsmobile recently.

Rev. and Mrs. R. L. Casselman were Monday shoppers in Ontario.

NYSSA GIRLS ENTER COLLEGE SORORITY

College of Idaho, May 17--Masako Endow, Mary Atagi, Taka Iwasaki, Mabel Roberts and Chiyu Yamada, all of Nyssa, are charter members of the Iota Phi, newly organized sorority on the College of Idaho campus.

The club was started last November as an independent organization and was active on the campus as such. It received its charter as a sorority in April and will participate in rushing activities next fall.

The first activity of the group as a sorority was a "fun house" held last Friday evening. Miss Iwasaki was in charge of tickets.

Miss Roberts was elected president of the club and in that capacity is a member of the inter-sorority council.

Miss Iwasaki is the secretary.

STOCKMAN URGES CONTROL MEASURE

Congressman Lowell Stockman on the floor of the house of representatives April 26 strongly defended the appropriation of \$875,000 ap-

proved by the bureau of the budget for control of predatory animals and injurious rodents under the current appropriation bill for the interior department. In opposing the cut of \$122,000 made by the committee on appropriations, he made the following statement:

"I, in common with other western congressmen, was hopeful that the committee would find it possible to allow the entire amount approved by the bureau of the budget for rodent and predator-control work carried on by the fish and wildlife service. Predatory animals, particularly the coyotes, are a major problem in connection with livestock and poultry production in the western areas. In recent years, despite the great effort made to control them, livestock losses have increased. Such losses have been due largely to the fact that private trappers who normally would engage in at least part-time control of these animals either are in the armed forces or in some of the war industries. Because of this lack of personnel, the toll taken from livestock and poultry supplies by predators has increased materially and accounts for a direct reduction in the total meat production of the nation. The only remaining force which has held these losses down has been the work of the fish and wildlife service in cooperation with the various states and organizations in the west. An increase in this control work is essential if losses are not to become greater. Despite the fact that the hunters of the fish and wildlife service took 119,879 of the larger predators during the last calendar year, that agency has not been able to meet the situation completely. There is no quicker and more direct way to increase the meat supply than to cut the heavy losses due to predator depredations.

"The western states are keenly aware of the intensity of the problem and contribute to the control program more than twice the amount of money contributed by the federal government. This, despite the fact that the federal government directly owns more than 50 per cent of the total area of the most of the western states. Last year, as I have said, the hunters working in this cooperative service took 119,879 of the larger predatory animals. This accomplishment saved many millions of

dollars of livestock and poultry which would not otherwise have been available to supplement the critical food supply. To the extent that predatory-control work can be increased to reduce further the losses, meat supplies flowing to the market can be substantially increased. I hope that, if the senate increases this appropriation, the committee will view sympathetically this problem which is of such importance in the western states."

PLANS FOR STORY HOUR ANNOUNCED

The Nyssa public librarian announces that Miss Lillian Nisbet, county librarian, has arranged a story hour to be conducted by Miss Daisy Secoy, county children's librarian, on alternate Tuesday afternoons during May, June and July at 2:30.

These story hours will be held near the Nyssa library in the city band stand, the first one on May 23. The stories will be of interest to all children, but there will always be something especially for those in the first and second grades and for those who will be in the first grade in the fall.

SERGEANT ROACH GOES TO ONTARIO

Sergeant William H. Roach of the state police with headquarters at Pendleton has been appointed to take charge of the local state police division with headquarters at Ontario. He succeeds the late T. R. "Ted" Chambers, who was killed in a gun battle at the Annex schoolhouse April 29.

Sergeant Roach, who has been employed by the state police organization since 1933, was stationed at LaGrande and Baker for several years before going to Pendleton. Before entering the state work he was associated with the state forestry department and the game division.

MORE FAT COULD BE SALVAGED HERE

Although Oregon rural families have responded well to the campaign to salvage more critically needed used household fats, a sample survey made by the Oregon State college extension service early this year, revealed that more than

a third of the families contacted said they could save greater amounts, reports the emergency assistant, Mrs. Geraldine Hall.

The program for greater collections of used fats in Malheur county is resulting in increased salvage from farm families, according to Mrs. Hall. Several collection points in Ontario, Nyssa and Vale report an increased turn-in of fats since the campaign to get rural women to save more fats was started.

Oregon is one of eight states in which the extension service, which is aiding in the fat salvage drive in rural areas, made spot surveys. The survey, made in 11 Oregon counties, revealed that 30 per cent of the families contacted had turned in no fats at all before the present urgent needs were emphasized. The average amount turned in was 2.2 pounds, half a pound a month lower than the national average for rural families. Thirty-five per cent of the Oregon families admitted they could turn in up to 50 per cent more used fats than they had been saving.

Rural housewives have a large supply of the estimated potential 500 million pounds of used kitchen fats yearly, Mrs. Hall said. Opportunities for salvaging used fats on the farm are now greater than those of the city housewives because of home production of meats on the farm and extensive use of poultry and other fat sources. For this reason, rural women have been called on to contribute a large share of the 250 million pounds of used fats needed to make up this year's deficit in supplies for essential military and civilian requirements.

BULLETIN ON SUGAR SAVING AVAILABLE

"Sugar Saving Methods of Canning and Freezing" bulletins may be secured from the Emergency Assistant, Mrs. Geraldine Hall at the County Agent's office in Ontario.

The present emergency makes necessary the conservation of sugar for ordinary home operations. Canning and freezing usually require a considerable quantity of sugar to make the products palatable. For the purpose of helping a critical situation faced by most

homemakers, the sugar saving bulletins suggest preserving methods based on experimental results that have been found to apply quite satisfactorily.

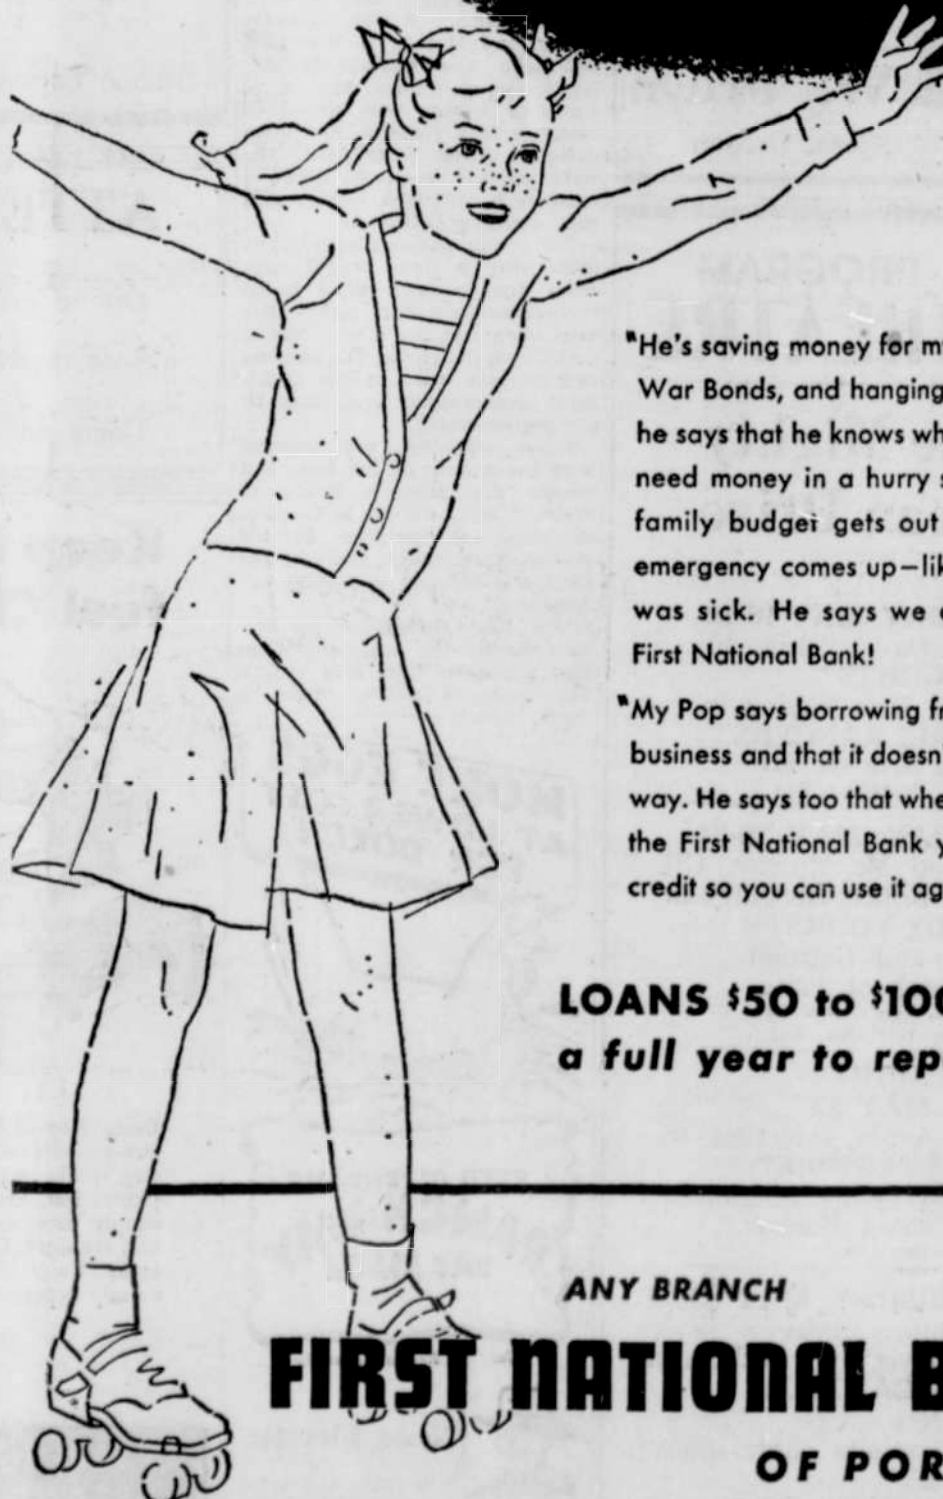

Fruit may be canned without any sugar, but the product is not appetizing. Sugar is not necessary for keeping qualities, but it is important for good texture, flavor and natural color. Even by adding a large amount of sugar after opening, the flavor is not as good as if it had been canned or frozen with even a moderate amount of sugar.

Examiner Coming—

A traveling examiner of operators and chauffeurs will be in the Nyssa city hall May 23 from 9 a.m. to 12, noon.

SUMMARY OF ANNUAL STATEMENT OF THE PEARL ASSURANCE COMPANY, LTD., UNITED STATES BRANCH, NEW YORK, IN THE STATE OF NEW YORK, ON THE 31ST DAY OF DECEMBER, 1944, MADE TO THE INSURANCE COMMISSIONERS OF THE STATE OF OREGON, PURSUANT TO LAW:	
Net premiums received—	\$ 3,970,230.80
Total interest, dividends and real estate income—	416,851.51
Income from other sources—	161,883.13
Total income—	\$ 4,548,965.44
Net amount paid—	\$ 5,089,732.32
Loss adjustment expenses—	1,925,738.97
Agents' commissions or brokerage—	115,540.29

MY POP'S A SMART MAN!

"He's saving money for my college by buying War Bonds, and hanging onto them too! But he says that he knows what to do in case we need money in a hurry sometime when the family budget gets out of balance or an emergency comes up—like the time Granny was sick. He says we can borrow at the First National Bank!

"My Pop says borrowing from a bank is good business and that it doesn't cost as much that way. He says too that when you borrow from the First National Bank you establish your credit so you can use it again if you want to."

A railroad's roadbed has a lot to do with travel comfort. A well-built roadbed does away with annoying, sleep-disturbing bumps... like a boat breasting a choppy sea. It gives you "smooth sailing."

The kind of gravel used for roadbed ballast is an important factor. Union Pacific uses a special, sturdy type of crushed granite which stands up particularly well under wartime's heavily loaded freight and passenger trains. Then, too, it acts as a "cushion," resulting in more comfortable riding and less wear on locomotives and cars.

Thus, even the ballast used on the railroad's roadbed plays its part in efficient, round-the-clock transportation of troops and essential battle-line freight over Union Pacific's Strategic Middle Route, uniting the East with the Pacific Coast.

Future "smooth sailing" over life's highway can be assured by holding tight to the war bonds we now have... and, as an extra measure of economic protection, buying as many more as we can possibly afford.
