Western Hall Hi-Lift Sweep Rakes

The Western-Hall Hi-Lift sweep rake with Power Control unit is designed to take the drudgery out of forage crop harvesting, cuts haying time as much as 50 per cent; does the work of 3 or 4 wagon crews. Delivers clean fully leaved hay to the stacks. Handles shocked grain to the thresher easily and quickly. Is used for all bundled or bulky forage crops; baled or loose straw.

The KNEE-FLEX Spring Suspension gives the hay a smooth ride over rough fields at speeds up to 20 miles per hour. It is loaded and unloaded as fast as you can shift gears--easily and quickly detached from the tractor.
