After crossing the Rhine, it drove with the 8th armored division through Kassel and Mulhausen and became the first field artillery unit to fire across the Danube when it operated in direct support of the 3rd cavalry group in its drive on Regensburg. And then the artillerymen joined the 13th (Black Cat) band wagon in its surge through the heart of Bavaria."

A nicely printed pamphlet outlining the activities of headquarters company 817, tank-destroyer battalion, and containing the names of the personnel has been received by Mrs. Randolph S. The battalion served with distinction in the offensive against Germany. Nyssa members of the battalion are Cpl. Cooper, Pfc. J. D. Willis of the staff platoon, T-5 L. is a member of the 32nd infantry division, which was recently commended by the commanding general, Major General W. H. Gill. "The 32nd division has accomplished its mission. The enemy has been destroyed and the Villa Verde trail secured," the general said. "After 120 days of fierce hand-to-hand combat over terrain more difficult than any yet encountered in this war, the 'Red Arrow' again pierced the enemy's line. You have crushed completely another of the so-called impregnable defenses, brilliantly concluding the division's fifth campaign in the Pacific theater."

"I desire to express to every officer and enlisted man in the division, as well as those attached, my heartfelt appreciation of the courage and determination each has shown while playing his vitally important part in this long and arduous campaign. You have outfought and destroyed a cunning

A National DAIRY MONTH SALUTE To The DAIRYMAN

Here is the man, the farmer and dairyman, whose labors make it possible for all of us at home, and all on the battle front, to put all we have in the fight for victory. His efforts keep America the best-fed nation in the world.

public can be certain that he won't let down on the job. He'll keep his products filling the consumers' market, and send enough over there. The dairyman is seeing to it that he gets more from his herd than ever before. He knows that the more he puts into the effort the more there is.

The dairyman's job isn't over yet, and the American We award special recognition at this time to those dairy farm workers on the home front.

This is National Dairy month, emphasizing the vital role played by dairy food, which fights for freedom.
