## Time Of Hearing On Local Road District Is Set

### After Hearing, County Court Will Call Election

A hearing on the organization of the proposed Nyssa road assessment district will be held in the courthouse in Vale September 5.

The road district law passed at the 1943 session of the legislature was considered by some lawyers in the state to be unconstitutional, so a committee of Nyssa residents and A. L. Fletcher, local attorney, appeared at the last session of the legislature and asked for passage of a new law.

Some persons considered the law unconstitutional because it applied only to Malheur county. The new legislation applies to counties having populations between 19,000 and 25,000, Mr. Fletcher said.

Farmers filed a petition and the county court set a time for the hearing in order to give all land owners an opportunity to object and ask that their lands be excluded if they so desire.

If no objections are announced at the September 5 hearing, the court will issue an order calling an election. If a farmer makes any objection to his land being included in the district, the court will decide whether it shall be excluded. However, the district cannot be reduced in size to a point below one million acres.

The city of Nyssa will not be included in the district.

## FIREMEN PLAN TO MEET WITH COUNCIL

The Nyssa firemen, meeting Monday night in the city hall, discussed recommendations to be presented to the city council at its meeting next Tuesday night relative to matters pertaining to fire fighting. President Harry Miner and Fire Chief Al Kuehn will meet with the council.

The firemen also discussed the firemen's ball to be held in September just prior to the opening of the sugar company "campaign". The dance will be held in the gymnasium.

The infant son of Mr. and Mrs. Irving T. Duffin wore a 42-year-old white baby dress when he was christened Sunday by his grandfather, H. E. Duffin, who came Saturday from Alerden, Idaho for the occasion. The baby was named Terry Wight. The gown was worn by its father when he was christened.

## DRAWING OWYHEE WATER VERY HEAVY

The bureau of reclamation delivered more water last month than during any July in the history of the Owyhee project, James Spofford, irrigation manager, announced this week.

Drawing of water is the heaviest during July so that the peak demand is now over.

The plant will have a capacity large enough to supply this entire territory and will give steady employment to several men, Mr. Johnson said.

The plant will be located just north of the Polar Cold Storage plant facing the highway and Walnut street.

## NYSSA RESIDENTS TO APPEAR IN RODEO

A number of calf ropers and riders from the Nyssa district are planning to enter the events at the Weiser night rodeo August 16, 17 and 18, according to General Chairman Chet Tharson.

Over \$1000 in prizes will be offered to contestants. The total budget for staging the Weiser show this year is more than \$10,000.

The program will include, in addition to bronc riding, bulldogging and calf roping, Brahma steer riding and several races.

Popular performers at each of the three night shows will include Trixie McCormick, widely known trick roper and rider from St. Paul, Minnesota. This is her first appearance in the Pacific northwest.

As last year, Pezz Reynolds, a clown and bull fighter who thrilled the crowds, and "Little Brown Jug", juvenile screen star, will be a hand.

The Great American carnival will be shown adjacent to the rodeo grounds.

Preceding each night's rodeo, there will be a parade in which all riders of the Nyssa district are invited to participate.

## MEMBERS IMPROVING BOAT LANDING ON EAST SIDE OF RIVER

The members are also removing the willows along the river in the vicinity of the landing and are installing lights.

Several boats will be in operation on the river next Sunday afternoon. Surf-riding will be staged about 5 p. m. with Bob Webster, Connie Kinsner and Herbert Fisher demonstrating the latest riding tactics.

The long-awaited launching of Herman Towne's boat is expected to be accomplished before Sunday. Mr. Towne built the boat himself, working in his spare time over a period of two years. From many standpoints it is the outstanding motor boat in this vicinity.

## Zoning Plan to Receive Hearing

A tentative hearing on the proposed city zoning ordinance will be held August 14 at 8 p. m. at the regular meeting of the city council.

The proposed ordinance will divide the city into four zones.

Zone 1 will be a restricted residential district where only one-family and two-family dwellings can be built.

Zone 2 will also be a residential district, but will include multiple family dwellings, apartment houses, schoolhouses and similar structures.

Zone 3 will be the business district, including all retail businesses, garages, banks and similar operations.

Zone 4 will be the industrial district, including warehouses and industrial plants.

The ordinance also provides setback building lines and controls the height of buildings and areas of lots that can be covered.

The purpose of the hearing is to give local residents an opportunity to discuss the ordinance. The hearing will be held on the report of a committee appointed by the city council to study the zoning problem. Members of the committee are George Henneman, Harry Miner and C. W. Buehner.

City Manager E. K. Burton said, "We would like to have the people's opinion".

ONTARIO (Special)—Excellent 4-H and FFA exhibits and top-notch entertainment in the arena are in prospect for the Malheur county fair to be held September 1, 2 and 3, according to plans outlined at a meeting of the board last week.

Attractive purses are offered for the Sunday and Monday races and rodeo events, William Ross, general rodeo chairman and Roy Brewster, racing chairman, announced. The prizes include bronc riding, \$150 each day plus entry fees of \$5 for each rider, split four ways; calf roping, \$100 each day plus entry fees, split three ways; in the best bucking horse each day, \$50, \$30 and \$20; derby and relay, \$125; five-eighths mile, \$100; half-mile, free-for-all, \$80; two-year colt race, \$75; ladies race \$75; saddle horse race, \$50 and kids' race, \$35.

The rodeo will be strictly an amateur affair as it has been the last two years.

On each of the rodeo days there will be a saddle horse parade at 12:30 p. m. with the fairgrounds show starting promptly at 2 o'clock.

Martin Osborn, parade chairman, announced \$5 prizes each day for the best-mounted man and woman rider.

The Future Farmers of the Ontario chapter will again show their projects. Since Ontario high school has been the only school in the county having vocational agriculture the past year, there will be no FFA exhibits from other schools. As a result the livestock judging will be open to any eligible contestant on the individual basis.

## Bailey Appeals Death Sentence

Kenneth Bailey, sentenced to die August 10 for the death of Ted R. Chambers, state policeman in a gun duel between officers and bandits April 29, will appeal to the Oregon supreme court, his attorneys, A. L. Fletcher of Nyssa and Charles W. Swan of Vale, revealed.

Bailey had written to them, Swan said, asking them if they would make an effort to have the case appealed. Bailey apparently is without funds, Swan said, but inasmuch as it appears that there has never been a case in the history of Oregon where judgment and sentence of death has not been reviewed by the supreme court of the state, authorities in the county agreed that it would be best to follow that precedent in the present case. Therefore an application to the county court to allow funds for carrying the appeal to the state's highest court was granted and Circuit Judge M. A. Biggs, under whose jurisdiction Bailey was tried, agreed to issue a certificate of probable cause and an order directing stay of execution allowing time for the case to be heard before the supreme court. The directive, which will keep Bailey from going to the gas chamber August 10, will probably be issued some time within the next few days.

## HOUSING SITUATION HERE IS SERIOUS

With more firms desiring to enter the Nyssa field, the housing situation here is becoming more critical.

Men are giving up their jobs because of lack of places in which to live. The reclamation bureau has lost three equipment operators because of the housing situation. Some business firms are having the same difficulty.

Apparently priorities can be secured, but prospective builders are hesitant because of fear of not being able to secure the proper materials and labor. However, at least one house has been completed recently and others are under construction. The new owners feel that their houses will be finished by late fall.

## Free X-rays To Be Given Here

Free chest X-rays will be offered to the residents of Nyssa August 24 when the chest X-ray survey unit of the Oregon Tuberculosis association will be here.

The committee in charge is attempting to contact as many persons as possible and offer the service to all adults in this area. No charge will be made as the expenses are paid through the annual sale of Christmas seals. Children under six years of age will not be examined. Children between 6 and 12 years will be taken only if the parents are present and are X-rayed.

The purpose of the mass examinations is to find the unknown cases of tuberculosis among the rank and file of the people. The service is the same kind that was given to the members of the armed forces and the same kind of service that has been given to 15 million in the United States during the past two years.

The unit, capable of taking 300 pictures a day, has taken 30,000 X-ray pictures in 14 counties in Oregon since January 1. Everyone who has a chest X-ray will be sent a report on the findings. If suspicious shadows are discovered on the X-ray picture, the person will be given a standard size X-ray by the county health department. The person with this X-ray plate will be sent to his own physician for further study and treatment.

Any individual desiring an X-ray should send his name and address to Vale, Oregon, box 273 or to Mrs. Will J. Roberts of Ontario, Mrs. Dick Tensen of Nyssa or Mrs. C. Y. Chester of Harper.

The X-ray unit will be operated on the city hall grounds from 10 a. m. to 12; noon, and from 1 to 4 p. m.

## Board Discusses Denver Meeting, Beet Wage Rates

### Special Meeting of Association Directors Held Here

A report on the Denver meeting of sugar beet growers was given by William Hogg of Marsing at a special meeting of the Nyssa-Nampa District Beet Growers association directors in the office of the secretary, A. L. Fletcher, in Nyssa Tuesday afternoon.

Mr. Hogg said the Denver meeting was very satisfactory, with 25 associations represented. Some of the delegates urged that the policy committee, which existed in 1943 be revived and that the members co-operate in an endeavor to secure a better price for beets. President William Carson, who was unable to attend the directors meeting because of illness in his family, was delegated to attend such meetings as may be arranged for the purpose of reviving the policy committee and that he be authorized to appoint an alternate to act in his stead at any time that he may be unable to attend.

Mr. Hogg suggested that the association issue a letter to all growers similar to that issued in 1944, in which reference should be made to the increase in the price of beets and a re-stating of the wage scale and urging the growers to adhere to that scale. In addition to the wage scale, the directors desired the letter to cover the subject of hauling the beets, the rate to be 60 cents per ton for the first mile and 5 cents per ton for each additional mile or fraction thereof. Provided, however, that wherever mechanical loaders are used the rate be 45 cents per ton. The letter will be issued about September 1.

At the invitation of the directors, R. G. Larson, district manager of the Amalgamated Sugar company, gave a talk on the labor situation and other conditions. He reported that the labor conditions are fairly satisfactory, with good prospects for the harvest. He explained that the mechanical equipment secured for this territory will help materially in accomplishing the harvest.

The sugar company is moving a double unit piler into the Overstreet station and is doing everything possible to insure a speedy harvest. Mr. Larson said. He estimated that 600,000 tons of beets will be harvested.

Directors attending were Herbert Tiegs of Nampa, Charles P. Oelien of Caldwell, William Hogg, D. W. Patton of Payette, Arvil Child of Nyssa, Don H. Stevens of Parma, James Karn of Wilder and Warner Gifford of Emmett.

## Beet Price Is Boosted By \$1

The sugar section of the United States department of agriculture has just announced that in order to increase supplies of sugar, the program for sugar beet production in 1946 will receive support at a price level of \$1 per ton higher than in 1945.

The average price for sugar beets of average quality in 1945 is set at \$12.50 per ton. The increase of \$1 would mean a price of \$13.50 a ton in 1946.

The crop locally is developing very satisfactorily. R. G. Larson, district manager of the Amalgamated Sugar company said. Indications are now for one of the highest yields in the history of the local district. The acreage this year for the Nyssa-Nampa district stands at about 36,200 acres of beets. This compares with slightly more than 36,000 acres in 1942.
