WOMEN URGED TO HELP FILIPINOS

The opportunity has been presented to the women of Malheur county to help the people of the Philippines after three years of privation and hunger and struggle to survive according to Mrs. Fred L. Olmstead of Ontario, county publicity chairman of the Red Cross.

"Following upon the heels of battle, the destitute Philippines straggled down out of the hills (General MacArthur, anticipating the situation, had requested supplies well in advance of the invasion and early this year more than 60 tons of clothing and emergency supplies were received on Luzon and distributed in and around Manila.

"But this was just the first shipment of the millions of relief supplies needed by the Philippines. While the American Red Cross is not expected to supply all the material necessary to alleviate the suffering of these people, military authorities have requested the Red Cross to furnish nearly one million garments to supplement the basic supplies for which the army is responsible. Therefore, cloth purchased by the government has been turned over to the Red Cross, and women in chapters throughout the nation have been asked to cut and sew the much-needed garments according to patterns approved by the Philippine relief committee. The 1000 yards of bleached broadcloth which this chapter has been allotted will be made, with your help, into boys' blouses, shorts and pants, infants' shirts and women's blouses, and women's dresses. With your own busy fingers you can join the thousands of American women cooperating in this project and gain the satisfaction of knowing that in a few months, some little Philippine girl will be excitedly exchanging her rags and tatters for the very blouse that you here in the Malheur chapter made for her.

"Mrs. E. M. Greig, county production chairman, has the patterns for dresses, blouses, girls' panties, boy's pants and baby shirts. As yet the material has not come. At present she has 45 yards of flannel for men's bed jackets 25 yards of unbleached muslin for bedside bags, 150 yards of twill for kit bags and slipper soles, 60 yards of O.D. sheeting for slipper toes, bias binding and ties, and 150 yards of flannel for men's pajamas. Buttons are needed."

MALHEUR GRAIN IS GOING INTO STORAGE

About 50 per cent of all grain now being harvested in Malheur county is going into storage, R. E. Brooke, county agent, said last week. Farmers generally are taking advantage of the Commodity Credit Corporation loans available in order to hold their grain for next spring's sale. Storage facilities in the county are ample to care for an even greater percentage of the crop, Brooke said.

Hay prices are down slightly, he said, with the price in most cases down as much as \$2 from its former level of \$18 for baled hay in

the field which gives the grower a price of \$14, allowing \$1 for baling. There is a shortage of cars for shipping early potatoes, Brooke said, and although no actual loss has occurred from this situation, the threat of losing a portion of the crop still present. Late potatoes which can be stored will not be affected.

There is a shortage of protein feeds such as soybean and cottonseed cake, Brooke said.

SUGAR STAMP TO BE VALID SEPTEMBER 1

Housewives who are getting panicky because they do not have sugar stamp 37 or spare stamp 37 in their ration book 4, and are wondering what will happen when sugar stamp 36 expires August 31, need not worry.

Willard Cass, district food rationing officer, explained that because a lot of people by mistake sent in sugar stamp 37 instead of spare stamp 37 last summer as identification to get canning sugar, the office of price administration cancelled both 37's months ago.

"This was done to avoid confusion and will not result in a loss of sugar. A new sugar stamp, probably No. 38, will become valid September 1," Cass assured.

Surrender of Japs Celedrated

(Continued from page 1) Righteousness exalthe a nation, but sin is a reproach to any nation."

Mrs. Wyckoff, accompanied at the piano by Mrs. Henry Hartley, sang "The Lord's Prayer".

Rev. George Whipple reminded that "Let us not become intoxicated with victory. Force has accomplished a great work but there remains a greater work. We face the responsibility of teaching the world our heritage. The fundamental cause of this war lies with the axis powers for they had impossible ideals and became educated monstrosities. The greatest contributing cause of this war lies farther back--in the opportunity Americans had to share our ideals. We have failed to share our heritage. Therefore the world has turned upon us. The axis world is still without the concepts that we desire them to have.

"We have learned our lessons at a very dear price. We learned in the revolutionary war that ideals mean something. In the civil war we learned the lessons of brotherhood. During this war we learn that these concepts are more important to the world now than they were to us. We have learned in this war that ideals are powerful and that they are the moving force behind mankind.

"This war has taught us that a world divided against itself cannot stand. It has taught us that brotherhood is a great power. We have

learned the need of one great world brotherhood. We have found that education without ideal is not sufficient."

Other numbers on the program, presented to a large congregation, were given as follows: Hymn, congregation; responsive reading, "Peace", Rev. Gernhardt and audience; hymn by congregation; salute to the flag, led by J. J. Kollen of the Veterans of Foreign Wars; "America", and benediction.

Telephones Still Go To WAR!

In Europe, telephones played a mighty important part in the defeat of Germany. Now, in the Pacific, telephones help unite our far flung forces of ships and planes, and provide a vital web of communications for the fighters-on-foot. We look forward to the day when we will be able to serve everyone again, but the demands of war must come first.
