

OWYHEE

The Owyhee Community club will meet with Mrs. Charles Culbertson Thursday, March 21. Mr. and Mrs. Claude Skinner and two children of Colorado arrived Thursday and are visiting at the Lewis Skinner home. They plan to locate here. Mr. and Mrs. Neal Nicholson

were business visitors in Boise Thursday. Captain and Mrs. Russell R. Wolf, Jr. and daughter, Ellen, left Thursday for Seattle, where they plan to make their home. They were callers in the Adolph Schultz home in Apple valley and at the S. D. Egelow home in Owyhee Wednesday afternoon. Mr. and Mrs. Mearl McClure and

two children were dinner guests of the Charles Culbertson family Sunday. Mrs. Martha Klingback entertained at a birthday dinner for her son Kenneth McDonald, Sunday. Guests were Mr. and Mrs. Gerald DeBord of Payette, Mr. and Mrs. George Gregg, Mr. and Mrs. Kenneth McDonald and children, Kay and Raymond, and Fred Klingback.

Fred Klingback made a trip to La Grande Friday in the interest of the F.F.A. of Adrian high school with other members of the school, who returned Saturday. Mrs. C. P. Culbertson and Mrs. Martha Klingback were business visitors in Nampa Friday. Mrs. Mildred Hite, teacher in La Grande, spent the week-end in Owyhee and was a caller in the Werner Peutz home Sunday afternoon. G. L. McMillan of Boise spent the week-end in the Louis Skinner home. Charles Walters and son, Raymond, of Walla Walla visited from Wednesday until Friday with his brother, Ellis Walters, and family. Jack Walters returned with them to spend the week-end in Walla Walla.

Mr. and Mrs. Ellis Walters and Mr. and Mrs. Byrd Walters were dinner guests of Mr. and Mrs. Earl Crocker Friday evening. Mr. and Mrs. Claude Smith moved last week from the Bob Price ranch to their new home recently purchased from Mrs. Frank Newbill. Capt. and Mrs. Russell R. Wolf, Jr., and Ellen were dinner guests in the George Gregg home Wednesday evening. Miss Ester Neim of Nyssa was a dinner guest of Miss Peggy Chard Sunday.

her home Friday from Leota, Kansas, where she was called because of illness of her daughter-in-law, Mrs. Richard Hobson. Mr. and Mrs. Lloyd Dibble and family of Apple Valley were recent visitors in the home of Mrs. Dibble's sister, Mrs. Bill Gregg. Among those attending the all-day meeting of the Assembly of God churches at Vale Wednesday were Rev. and Mrs. Alfred Brim and family, Mr. and Mrs. Leslie Ditty and family, Mrs. Charles Ditty and Tressa Ditty. Mrs. Jim Langley and Mrs. Homer Brewer of Owyhee were hostesses Thursday afternoon at a pink and blue shower honoring Mrs. Keith Tallman of Owyhee. Mrs. Leslie Hays and her sister of Nyssa have moved into a new house on the farm operated by Mr. and Mrs. Dick Wyatt. Mr. and Mrs. C. Wilson were Parma shoppers Wednesday. The rain which fell Monday evening stopped spring work in the fields.

Users in Harney county." Brainard said the Edwards Hines Lumber company at its Hines plant near Burns would continue to supply a portion of the California-Pacific requirements, the energy for which will be generated by burning waste fuel, thereby utilizing a waste produce from their lumber operations. "We are pleased at the prospect of furnishing service to the neighboring utility company while, at the same time, bringing electricity to the farms and homes of the Juntura, Beulah and Van areas," Brainard declared.

Sinking of the Art Mayes well has been completed at a depth of 104 feet, where soft water was struck. Mrs. Arthur Mayes entertained her club March 12. The George Cooper family went to Nyssa on business. All the hay in the valley is being chopped and hauled out.

Idaho Power Will Join Calif. Line

Electric transmission line construction by Idaho Power company to Juntura and Van will result in inter-connection with the California-Pacific Utilities company serving Burns and John Day, it was announced here by L. W. Brainard, Idaho Power division manager. The 69,000-volt line, which was built to Juntura last December in accordance with our promise to the people of that community, will reach Van next fall," Brainard said, "and the California-Pacific company will build approximately 80 miles of line between Burns and John Day and a tap-line to Van. This will provide an adequate supply of electric power for all present and future needs of electric

Dessert Seed Company

SAVE LABOR WITH THE

TuSco Potato Picker

Harvests the potatoes in one operation, putting them into bags or crates free from stones, vines and dirt. In free, sandy soil, the potatoes go over into bags or crates and one man throws off the vines. In stony and lumpy soil a man on each side of the picker rolls or picks the potatoes into side elevators where they go into bags or crates. The vines, dirt and stones go over on the ground again.

With the TuSco potato picker you can dig and pick rows in rotation without any damage to remaining rows; **WHEN YOU ARE THROUGH DIGGING, YOU ARE THROUGH PICKING!**

No dug potatoes to stay in the field when weather conditions or other reasons force you to stop digging.

The TuSco potato picker will pick, bag or crate seven to 10 acres per day.

Come in and see them. We can make delivery at once. No waiting.

How Are Public Utility Districts Financed?

The question of how People's Utility districts are financed continually bobs up. There are still many people (misinformed by the opponents in previous Linn County People's Utility District campaigns) who believe that their land and homes can be bonded to secure the money to set up a utility district.

The facts are as follows: The law explicitly states that the district may sell revenue bonds to obtain the necessary money to start a Public Utility District.

Revenue bonds should not be confused with general obligation bonds. Obligation bonds are issued when a school district wishes to build a new school house and since there is no revenue from operating a school district, the obligation bonds become a lien on the property in the school district and therefore must be paid in the form of taxes.

When revenue bonds are sold to start a Public Utility District these bonds become a lien on the income or revenue collected from the users of electricity. There is no mortgage on any property—not even on the distribution system owned by the utility district.

Utility District revenue bonds are eagerly sought by the best financial institutions as one of the soundest investments that can be made. In the state of Washington the original interest rate for revenue bonds of a number of PUDs was approximately 4 1/2 per cent. Since these PUDs were able to refinance at interest rates ranging from 1.84 per cent to 2.75 per cent.
