* With electric water heating

**...Compare your cost
of Electric Service
with P. U. D.'s**

After all, the final test of PUD from your point of view is—"Will it make my electric service any better or cheaper?"

The chart above gives a quick answer on the question of cheapness. Central Lincoln PUD is the largest PUD operating in Oregon—and one of the only two actually in operation.

Its rates are much higher than the electric rates you pay Idaho Power Company in spite of the fact it avoids all federal taxes—and, the greater the use of electricity, the greater the difference in favor of your Idaho Power rates.

If anyone tells you that a Malheur County PUD will bring lower electric rates, ask them to explain why Central Lincoln PUD rates are so much higher than Idaho Power's.
