FREE CLINIC FOR
HARD OF HEARING
AT NYSSANEW AIDS FOR
"HEARING HAPPINESS"
DEMONSTRATION AT
OWYHEE HOTEL, FRIDAY

To prove to you how much your hearing can be restored, E. M. Hollenbeck, experienced Acoustician, invites you to attend the free clinic for the hard of hearing he will hold at the Owyhee Hotel in Nyssa, Friday, August 30 from 10 a. m. until 6 p. m.

As a result of war research, Acousticon provides a new scientific hearing correction through which the degree of deafness may be "fitted" just as one would be fitted for a pair of glasses. Mr. Hollenbeck states that there are eight different "Hearing Lenses", each specifically designed to bring into focus different portions of sound, both conversation and music. Sounds must be in clear "focus" to be heard correctly, according to Mr. Hollenbeck and normally nature provides us with ears that focus without difficulty, but some people, unfortunately, have impaired hearing. The new Acousticon gives the degree of correction needed to bring hearing into clear "focus".

"Unipac" Weighs Only 8 Ounces! Though complete weight of the smallest size "Super-Power" Unipac is no more than 7 1/2 ounces, Acousticon has a special "all-in-one-garment" made of rayon for women which weighs even less. The sealed, airtight case of the "Super-Power" model is molded of opalescent lucite making it outstanding in beauty as well as durability.

To provide Acousticon users with efficient service, offices are so located that there is one not more than 24 hours distant from you no matter where you live. If you are unable to attend the clinic, you may receive a private demonstration and appointment in your own home by phoning Mr. Hollenbeck at the Owyhee Hotel in Nyssa. Adv.

Notice

Applications for employment during the coming beet processing campaign are now being received at the Nyssa factory. All former campaign employees as well as others who are interested in working should file an application at once.

The regular work week will be 56 hours (seven 8 hour shifts). Time and one-half will be paid after the first (40) straight time hours worked. The lowest hourly rate paid for men will be eighty-five (.85) per hour for the first 40 hours worked, and one and one-half (1 1/2) times that rate for the next 16 hours worked.

The above rate will make \$54.40 for a 56 hour work week.

The campaign will start about September 23 and will run for approximately 140 days, due to the large beet acreage that will be harvested this year.
