Complete Staff Of Teachers Is Now Available

Enlarged enrollment expected because of population increase

The Nyssa schools will be opened Tuesday, September 3 with a full staff of teachers, custodians and bus drivers.

The administration has found it hard to assemble a complete staff, but feels that the present organization will compare favorably with any of those of the past, Henry Hartley, superintendent, stated.

"An enlarged enrollment is anticipated as the population of the community seems to have increased during the summer", Mr. Hartley said. "In order to cope with the situation, the Arcadia school will be operated as a three-teacher school. Children attending from the first through the sixth grades and living north of the half section line south of Eureka avenue will attend the Arcadia school. This will relieve the situation in the larger school and give excellent educational advantages to the children in the Arcadia district."

It is hoped that the Nyssa school building program can be completed before school starts next fall. Completion of the building program will make operation of the Arcadia school unnecessary.

Seventy-five freshmen registered Tuesday for entrance into high school. The sophomores registered Wednesday and the juniors today. The seniors will register Friday. High school figures reveal that the 75 freshmen is a larger number than the usual number of beginners in the Nyssa high school.

The faculties of three schools were announced by Mr. Hartley as follows:

Nyssa grade school—W. L. McParland, principal; first grade, Mrs. Dorthea Henneman, Mrs. Madeline Hummel and Mrs. Naia Burke; second, Mrs. Winnie Bice and Miss Clarke Notheis; third, Miss G. Eva Boydell and Mrs. Gertrude Pennick; fourth, Mrs. Eva Chadwick and Miss Theresa Gehmert; fifth, Mrs. Iva Williams and Mrs. Hazel Lane; sixth, Mrs. Josephine Rigney and Mrs. Mildred Renstrom; and seventh and eighth, Miss Harriet Cole, Mrs. Victoria Schweitzer, and Robert Tolbert.

Lawrence supervisor of music.

The building will be used for a temporary office and storage space for machinery.

Nyssa C-C Votes Its Approval Of Fund For Roads

10-mill Levy Would Raise About \$130,000 A Year For 5 Years

The Nyssa chamber of commerce went on record at its Wednesday luncheon as favoring the proposed 10 mill tax levy for a special road fund that will be voted on in November.

The action was taken after Alva Goodell, a member of the budget board and candidate for county commissioner, had explained the proposal.

Based on the present assessed valuation of the county, the tax would raise approximately \$130,000 a year over a period of five years.

Mr. Goodell said the county has practically no debt, but cannot increase taxes sufficiently to keep roads in good condition because of the six per cent limitation.

The county has practically no money in its road fund. However, it receives approximately \$40,000 a year from the state motor vehicle fund. As a result the county would have approximately \$200,000 a year to spend on roads if the 10 mill levy were approved by the voters.

Mr. Callahan also stated that he has been able to purchase a record playing machine with amplifier, which will be used at St. Paul's church for dancing parties for all young people.

"These parties are especially arranged for the teen age group of children who are so in need of decent recreation", Mr. Callahan said. "Parents may be assured of proper conduct at all times as all parties will be supervised by adults."

X-RAY UNIT COMING

Calf Selected For 4-H Youth

A fine registered jersey calf will be awarded to an outstanding 4-H Dairy club member at the Malheur county fair to be held August 31 to September 2, according to E. M. Hauser, county 4-H club agent.

The calf will be given by the Avoset company, which is building a milk processing plant at Nyssa, according to Ray O. Petersen, manager of the company. A registered calf of a different breed will be given each year at the county fair. The Nyssa chamber of commerce will pay the winner's expenses to exhibit the calf at the Pacific International Livestock exposition at Portland in 1947.

The calf was selected by Mr. Hauser and Mr. Peterson from the Everett Pease jersey herd at Parma. In 1945, according to cow testing records, this herd of 24 registered jerseys averaged 450 pounds of butterfat, which was the highest average in its class in unit 3 of the Boise Valley Cow Testing association. This year the herd will produce nearly 500 pounds of butterfat per cow. In December, 1945 the herd averaged 47.6 pounds of butterfat per cow, which was the highest grade for the class in the United States for that month. This calf should make a fine individual to use in starting a registered herd, Mr. Hauser said.

The winner of the calf will be selected by a committee according to the following points: Completeness and accuracy of project work, 25 points; number of years in dairy club work, 20 points; number and quality of exhibits, 20 points; fitting, showing and herdsmanship, 20 points, and number of projects carried, 15 points.
