NEWSPAPER WEEK OBSERVED

Newspaper publishers have struggled through their first full year of peace since the last time they observed National Newspaper week in October, 1945, which marked the conclusion of the most difficult period in history of the publishing business.

Newspaper people, giving recognition to National Newspaper week again, are in much better position from the standpoint of advertising than they were a year ago. Although every business is still somewhat restricted, merchants are able to secure more merchandise, which is reflected in the advertising volume. The larger newspapers are also restricted in the amount of newsprint they are permitted to use, which holds the daily publications to a minimum in size.

Through all of this period when the people were clamoring for scarce merchandise and merchants were endeavoring to cope with a so-called "buyers' market", the newspapers managed to secure enough advertising, the backbone of their existence, to struggle through to see the light of a new era.

We are thankful for the cooperation of the merchants whose patronage made possible our existence during a trying period and to those who patronized other departments of our business.

We are also grateful to our news sources who provided the items of interest that go hand-in-hand with the advertising to make a well-rounded readable newspaper.

With the cooperation of the people within the city of Nyssa and the townspeople and rural residents, this community is certain to grow and the publishers of this community hope to grow with it. We hope to deserve the cooperation that will make our development possible.

Defeat
THIS CRACKPOT
NEW INCOME TAX
Don't let Oregon be the "Guinea Pig" for a Fantastic Tax Plan that Dr. Townsend himself once "unalterably opposed" as unsound!

BEWARE! There is a measure on the November 5th ballot designed "To Create State Old Age and Disability Pension Fund" that would levy a 3% Tax on all Gross Wages, Salaries, Sales of farmers, wholesalers, manufacturers and retail business, and earnings on investments and life insurance benefits above \$100 a month.

- It's in addition to all other taxes, both state and federal.
- It would require new and additional monthly income tax reports.
- It would not repeal any other taxes.
- It is a special purpose tax to give everybody \$100 at 60 whether in need or not.
- It would not be used for any other State function unless there is a surplus after paying everyone at 60—\$100 a month.
- It would cut your take-home pay.
- It would pyramid on many products and operations.
- It would wreck Oregon economy.

VOTE IT DOWN!
No other State has it. Oregon is being made a "guinea pig".

VOTE 315 X NO

Oregon is steadily increasing its old age assistance payments and is now among the first six states in this respect. Keep this plan progressing and sound. Don't let a crackpot measure imperil what old people in need now receive!

Read this from the measure:

SEC. 3. In addition to all other state taxes and excises there shall be levied, collected and paid each month beginning with the month of July, 1947, a tax of 3 per centum of all the gross income of every person, firm, association, co-partnership or corporation, residing or doing business in Oregon, derived from any and all sources excepting such income as is exempted from state taxation by the constitution and laws of the United States and except such income as is specifically exempted in Section 5 of this Act.

SEC. 4. For the purpose of this Act the term "gross income" means the gross receipts of the taxpayer received as compensation for personal services and the gross receipts of the taxpayer derived from trade, business, commerce, or the sale of tangible or intangible property and including interest, dividends, discounts, rentals, royalties, fees, commissions, bonuses, or prizes or any other emoluments, however designated, and without any deductions on account of the cost of property sold, the cost of materials used, labor cost, taxes, royalties, interest or discount paid, or any other expenses whatsoever.
