Mr. and Mrs. Houston Wilson left Friday for Corvallis, where he will attend Oregon State college. They have spent the holidays with Mr. and Mrs. Barney Wilson.

DISABLED VETERANS!
If You're Experiencing Difficulty Obtaining Civilian Work—
REMEMBER!
The Regular Army May Have Just the Opening For You!

There are over 100 different classifications open for enlistment to combat disabled veterans of World War II in the Army. Only 23 of these classifications require previous qualified experience. This opportunity for enlistment is particularly attractive if you have an MOS grade in any of these 23 classifications. Here's a good, sound, financially attractive way to step up your earnings.

The Regular Army needs straight thinking combat disabled veterans who possess, or are trainable in, certain critically needed skills and who meet other eligibility requirements. Investigate at your nearest Army Recruiting Station immediately as these enlistments are rapidly being filled. Check in—talk it over!

Free Clinic For Hard Of Hearing at Nyssa

New Aids for "Hearing Happiness"
Demonstration at Owyhee hotel, Friday

To prove to you how much your hearing can be restored, D. C. Rush, experienced Acoustician, invites you to attend the free clinic for the hard of hearing he will hold at the Owyhee hotel in Nyssa, Friday, January 3, from 10 a.m. until 6 p.m.

As a result of war research, Acousticon provides a new scientific hearing correction through which the degree of deafness may be "fitted" just as one would be fitted for a pair of glasses.

Rush states that there are eight different "Hearing Lenses", each specifically designed to bring into focus different portions of sound, both conversation and music. Sounds must be in clear "focus" to be heard correctly, according to Rush, and normally nature provides us with ears that focus without difficulty, but some people, unfortunately, have impaired hearing. The new Acousticon gives the degree of correction needed to bring hearing into clear "focus".

"Unipac" Weighs Only 8 Ounces!
Though complete weight of the smallest size "Super-Power" Unipac is no more than 7 1/2 ounces, Acousticon has a special "all-in-one-garment" made of rayon for women which weighs even less. The sealed, airtight case of the "Super-Power" model is molded of opalescent lucite making it outstanding in beauty as well as durability. To provide Acousticon users with efficient service, offices are so located that there is one not more than 24 hours distant from you no matter where you live. If you are unable to attend the clinic, you may receive a private demonstration and appointment in your own home by phoning Mr. Rush at the Owyhee Hotel in Nyssa.
