

BYBEE REUNION HELD
Residents of Salt Lake City, Nampa, Ontario and Nyssa attended the Bybee family reunion and party celebrating Mrs. Mary E. Bybee's 76th birthday in the LDS hall Tuesday evening.

Mrs. Bybee, the mother of 10 children, has 33 grandchildren and 14 great grandchildren, making a total of 57 direct descendants.

Mrs. Sherman P. Bybee was in charge of the banquet table, Mrs.

D. O. Bybee was program chairman, and D. O. Bybee was master of ceremonies. A program, in which most of the grandchildren participated, was given. Mrs. Wilford Bybee sang "The Sweetest Person On Earth", a song written especially for Mrs. Bybee. Verses of the song were printed and copies distributed to those present. Garry Bybee gave a reading, "My Grandma", also written for the

occasion.
A large "family tree" was erected with the pictures of all members of the family forming the leaves. The tree has been placed in a frame and covered with glass to

preserve it. A short sketch, on the Bybee genealogy, given by Mrs. Darthei Pike, revealed that the Bybee ancestors were trail-blazers, farmers and businessmen. The four brothers living in this vicinity managed more than 1000 acres of farming land last year. The following business places in Nyssa are now either owned or operated by them or their grandchildren: Carl's Doll House, Gordon's Drive-in, Inland Oil company, the Firestone store, George's Sweet Shop, Kaiser-Fraser car dealers, and the Owyhee Produce. Four grandsons served in the last war and two sons and one granddaughter filled LDS missions. A picture was taken at the reunion by Grant Peterson.

THERE'S COW SENSE, TOO, NEIGHBOR!

Mr. Farmer:

We're not trying to tell you how to run your business. We only want to remark that we've often noticed, while driving through the country, that cows seem to graze where the grass grows greenest. Maybe they're not as smart as horses, but they do know good grazing.

Some of our farm friends have been telling us how they keep their grass greener, and how they increase crop yields generally. They're doing it, they tell us, through CONSERVATION FARMING. They're testing their soil to see what it requires. They use lime where needed, phosphates and other fertilizers, cover crops, and erosion control practices—all of which add up to more and better feed, more and better milk, and richer soil for future farming.

Maybe you need more conservation practices than you're carrying out now. If so, it's to your advantage to see your local Agricultural Conservation Committee for information on how the Agricultural Conservation Program can assist.

Chairman of the local County Agricultural Conservation (AAA) Committee is Glen L. Hutchinson of Ontario. The committee exists for your benefit and you are urged to avail yourself of its facilities.
