Living Proof... FORD TRUCKS LAST LONGER!
1912 FORD still going strong!
"I use this 1912 Model T Truck in my used car business, and it still rolls along at 35 mph. After it was idle for several years, I filled it with gas and oil, cranked it up, and it started at once! Two original spark plugs, dated 1905, still perform! The original horn and the lights still work fine. After 35 years, the rear door doesn't even rattle! You bet Ford Trucks last longer!"
PAT CANE, Pensacola, N. J.
Used Every Day Since 1918!
"Since 1918, I've driven this truck about 25 miles, 6 days a week... on Sundays I often drive it 70 miles. I've grown very much attached to my truck. I don't think I will ever part with it!"
LORENZO BARATTINI, New Orleans, La.
29 Years of Reliable Service!
"I've been using this 1917 Ford Truck since I was 33... I'm 63 now. The engine has been replaced only once... most of the original equipment is still in use! I'll say Ford Trucks last longer!"
JESSE TURNER, Kokomo, Indiana
