

ADRIAN'S TEACHERS COME FROM AFAR

ADRIAN, Oct. 23—Adrian high school's teachers this year came from widely scattered sections of the nation. George E. Bright is Adrian's new principal. In previous years, Mr. Bright was principal at Prairie City, Oregon, Dixon, Montana, and Newport, Washington. Mr. Bright attended Montana State college in Bozeman for two years, and graduated from Montana State Normal college at Dillon in 1924. In 1927 he graduated from the University of Wyoming with a BS degree in civil engineering. While working with the engineers he did drafting and designs for the Texas Oil company, and also worked on the railroad in Honduras, Mexico. In 1938 he received his master's degree at the University of Montana. Later, he did advance work at Oregon State college and at the University of Idaho. Mr. Bright likes Adrian. His hobbies consist of woodcraft, taxidermy, and fishing. Mrs. Martha Council is home economics teacher. She is not a stranger in Adrian, because she was reared in Nyssa and knows Eastern Oregon well. She attended Oregon State college at Corvallis, and graduated with the class of 1947. This is her first year of teaching and she likes it very much. After graduating, she returned to Nyssa, where she married and is now making her home. Her hobbies are bowling and swimming. Miss Norma Butler, girls physical education and band instructor, is from New York City. She graduated from Hunter College, with a BA degree in music. Last year she taught music in Lakeview, Oregon. Previous to that she taught in New York. Miss Butler has also had a wide range of experience as a music camp counselor. On her trips back and forth across the country Miss Butler has seen most of the states. She thinks the Adrian section is very beautiful. When asked her opinion about the Adrian high school student body, Miss Butler replied, "It's one of the nicest I have encountered". Her hobbies are collecting musical figures and doing various kinds of craft work. Another new member of the faculty is John Chamberlain. He is the coach and science teacher. Besides teaching he will act in the capacity of junior adviser. Mr. Chamberlain comes from Kentucky. He attended high school and participated in all sports. At Georgetown college he majored in physical education, receiving his degree in 1942. After he graduated from college he decided to go into professional football, but the army said no! While in the army he was stationed in Oregon for quite some time and liked it very much. In 1946 he was discharged from the army and returned to Oregon because he liked it better than any other state. Last year he taught at Phoenix, Oregon. He was also married in Oregon. Mr. Chamberlain likes Adrian very well and says that Adrian seems like an oasis after coming across the desert from southern Oregon. He thinks that the student body of Adrian high school is exceptionally good. He has quite a number of hobbies, but his main interests are hunting, fishing and swimming. One of his pet peeves, is the climate of Oregon because it is not suitable for water sports. Miss Jean Cumming, who teaches English, Spanish, and journalism, was born in Scotland and attended school there one year. She attended high school in Wilkesburg, Pennsylvania, a suburb of Pittsburgh. Miss Cumming attended Duquesne university in Pittsburgh and Western Reserve in Cleveland, Ohio, majoring in modern languages. She has a BA degree in education. After graduating from college Miss Cumming worked for the county auditor in Cleveland and later taught school in Michigan and Arizona. She likes the west and likes Adrian in contrast to the cities in which she has lived. Her hobbies consist of reading. She hopes to publish a book some day.
