FUNNY AND THANKFUL

Can a person be funny and thankful? Well, most of us can't because we are not funny (strange, odd) in the right way. If we are "funny" we can't be thankful for the things we have and we can't find happiness unless we are thankful.

That is a messy conglomeration of words and phrases, but it merely says we are not thankful because we are "funny" and the reason we are "funny" is that we are not thankful.

Most of the fellows who have a million dollars are not satisfied; they want two million. Those who are healthy do not appreciate their health, at least until they lose it. Some of those who have fine houses seek pleasure elsewhere. People who have good jobs want business ownership and business men think they see greater opportunity and pleasure in another man's business. People are funny that way.

We find happiness in being thankful for what we have and not in what we would like to have.

Don't Be Confused

The Retail Credit Association, Inc., of Ontario, The Retail Credit Association, Inc., of Nyssa and The Retail Credit Association of Vale operate their own credit reporting offices under the management of Nedra Carson, credit reporting expert.

The Nyssa Credit Bureau

The Nyssa Credit Bureau, located in the Fry building, belonging solely to the Nyssa credit grantors listed below should not be confused with the credit office in the Guss building in Ontario, a privately owned credit office operating as the Ontario Credit Bureau, Inc., or as Credit Bureaus, which is not a member of the reporting division of the Associated Credit Bureaus of America.

There has been some confusion because of the similarity in the names of these reporting offices, a condition which the merchants' group can not avoid.

Business men in Malheur county, particularly the members listed below, should for their own benefit, understand the difference and be able to distinguish between the private office and their merchant-owned credit reporting offices.

Extensive files are maintained in their offices by the Malheur county merchants. They are at your disposal. You are invited to visit at any of these offices and view their complete credit reference resources.

Poles, wire, cable, switchboards and other central office equipment—these will be added continuously until everyone can have the kind of service he wants, when it is wanted.
