"You Want Your Money When Due--So Does The Other Fellow".

When you buy goods or service on "open account"—the seller is demonstrating a friendly trust in you—by extending credit. When you pay promptly, you prove this trust was rightly placed.

WHEN you do not meet your obligations as mutually understood, you are not only abusing this friendly confidence—you are retarding the whole commercial cycle—for you embarrass the seller in his efforts to meet his obligations promptly.

THE whole credit idea is interwoven. It can only be continued to the degree that all of us meet our obligations promptly.

BE with the majority—pay up and keep your credit good!
