It isn't what you pay— It's what you get!

If you had to pay a million bucks for that baby of yours, you'd still be getting a bargain. And you don't get many other bargains these days of high costs. Except electricity, of course! Yes, electricity goes right on being the biggest bargain in anybody's budget. The average family is still getting twice as much electric service for its money as it got 20 years ago! One penny will light a 100-watt bulb for almost 3 hours. Or whisk clean 3 tubs of washing! Or run a radio a whole evening! That little copper will vacuum clean 6 large rugs, run your refrigerator for 5 hours, or tell you the correct time for about a week. It isn't what you pay, it's what you get, that's true. And when you buy electricity, you get a lot—for a little!

* ONE HOUR LATER. New time for the Electric Hour—THE HOUR OF CHARM. Sundays, 5:30 P. M., EST, CBS.
