NEWS VIEWS

BY LEW HERRIMAN

If you're feeling a little gay, giddy and lightheaded these days—don't worry. You're normal as bumps on a cucumber. It's just that March 20 is the first day of Spring—at 8:57 a.m. to be exact. This is the sappy season for trees—and sometimes you wonder about some of the human race. A young man's fancy is supposed to turn to love and most of our ambition turns to daydreams. It is also a time when gardeners are thinking of flowers, fishermen of fishes and winter-weary families start planning summer vacations. There may be a cure for Spring Fever—but who wants it?

Along about this time of year when you see Cube Salee, Jack Galloway, Joe Sutherland and Harry Miner talking together on Sunday morning, they are not planning on cleaning up the yard or planting flowers.

A New York stylist claims that women's hats influence American birth rates. Maybe the stork feels he's been high-hatted! If your car has a high rate of fuel-consumption, perhaps you need a new 'hat' for the cylinder head! If you do, don't worry about it, just drive in to HERRIMAN MOTOR COMPANY, and have Gene Fisher, our service manager, do the job for you. We guarantee we'll save you money on the job. So drop in today. Phone 77.
