For centuries the diplomats in European countries have been in the habit of counting their fingers after shaking hands. They didn't trust each other any further than you can see with smoke in your eyes in a coal mine. Now things are reversed; Britain, France, Belgium, the Netherlands and Luxembourg have signed a pact that may wind up as a federation of all Western European countries. The idea is to promote mutual aid along military, political and economic lines. Old Ben Franklin gave them their cue when he said, "We must all hang together, or assuredly we shall all hang separately."
The ladies auxiliary of our local American Legion post has started a project to beautify the cemetery. This is a worthy project and deserves support.
A dancer in Phoenix got so enthusiastic while doing a new dance routine that she spun around and wound up in a bass drum. Well, you can't beat that. You can't beat a GATES tire—for either your car or your truck. Each tire is warranted by us against road hazards. Come in and let IKE WILLIAMSON show you the tire and explain the GATES SERVICE CONTRACT.
