HAVE YOU ORDERED YOUR TWINE?

We wish there were indications of a near-normal supply of McCormick-Deering Binder Twine and International Baler Twine for 1948, but it doesn't look that way.
The situation this year, just as in the past several years, will be unsettled due to the shortage of fibers used in manufacture of twine.
We urge all of our customers who need binder twine and baler twine to order from us at once.
