It's kind of early for most people to be taking vacations—but not too early to think about them. There are three parts to vacations, anyway—the anticipation, the vacation, and the talking about it afterwards. Many folks think the planning is the best part. That's the time when your imagination is freer than a bubble in a high wind. You can go ten different places in ten minutes, and it doesn't cost you a cent. It doesn't even tax your imagination. I think everybody ought to get away for a while—because there's nothing like a vacation to make you realize there's no place like home.

A 15-year-old Wichita lad proved to his girl he was no coward by shooting off his right big toe. I wonder if it improved his standing with the young lady? Which reminds me, you can improve your standing in the community by letting us keep your car in top condition at HERRIMAN MOTOR COMPANY! If you're planning on a vacation trip this summer, it's a good idea to have that motor tuned-up, brakes and battery checked. Nothing like being on the safe side! So drive in now and have the work done by experts! Phone: 77.
