Perfect Plowing Team... New OLIVER "77" and the PLOW MASTER

Smooth, abundant power! That's what the new Oliver "77" delivers!

Thorough soil pulverization! That's the result when you use the Oliver Plow Master and its exclusive Raydex bottoms with shares so low in cost you can throw them away when they get dull.

The new farm features of the Oliver "77" make this famous tractor more versatile and economical than ever to own. Its steady 6-cylinder engine and 6-forward-speed transmission give you nearly any ground travel and drawbar pull combination you need.

You have a choice of three engines: one for gasoline, one for tractor fuel—and a diesel, a specially designed, farm-engineered engine that will be available later. Also, you have a choice of interchangeable cast iron or stamped steel wheels for Row Crop Models to suit your traction conditions. What's more, every mounted tool is basically interchangeable with every other new Row Crop tractor. When you add the direct drive power take-off of the "77", metered oil system, battery ignition and the several other new improvements, you'll realize why the "77" is truly a farmer's tractor.

"Rich man's toy!"

That's what "wise guys" of the 1880's called the newfangled electric service. And that's all it might be today—IF . . .

IF people hadn't risked their savings to start electric companies such as yours, and to keep them growing.

IF others, often against expert advice, hadn't poured out their energy and time—to extend the wires farther and farther, make the service better and better, bring the rates lower and lower.

They took the risks—they developed the skills—and everybody benefits. That's the way the American business system works.

Rich man's toy? Today, electricity is *everyman's* good right arm!
