PORTRAIT OF A MAN *Playing it Safe*

Here is a man who knows what's what. He doesn't gamble with his health or the health of his family. He knows that tuberculosis strikes without warning. He knows that people all too often have TB and aren't aware of it until it has progressed so far that it is difficult, if not impossible, to cure—meanwhile they are a source of great danger to their families. He doesn't intend to let it happen to him. He is checking his chest—with an X-ray. That is what every thinking man and woman should do. That is what you should do. Remember—early TB can be cured. When the disease has taken hold, it takes longer to cure, costs more to cure. And some people are not cured. They die.

Play it Safe! CHECK YOUR CHEST! GET AN X-RAY Today!

COME TO THE NYSSA CITY HALL FRIDAY, OCTOBER 22, BETWEEN 1 AND 5 P. M. OR SATURDAY, OCTOBER 23, BETWEEN 9 A. M. AND 5 P. M. FOR YOUR FREE CHEST X-RAY
