The General Insurance Company's "preferred risk" coverage on fire insurance has saved thousands of families 15% on insurance costs. This GENERAL plan is for careful people, who build solidly, plan for the future and take care of what they have. "Preferred Risk" isn't limited to modern homes. It means "eliminate the bad risks."

Does YOUR property qualify for this selective insurance? Ask us. We will tell you promptly—and without obligation.

**SAVED 15% ON FIRE INSURANCE**

Many homes are in the "preferred circle" and have qualified for a 15% dividend on their fire insurance premiums. The General Insurance Company of America will not accept bad risks; therefore losses are below average and "preferred" property owners have shared in the savings.
