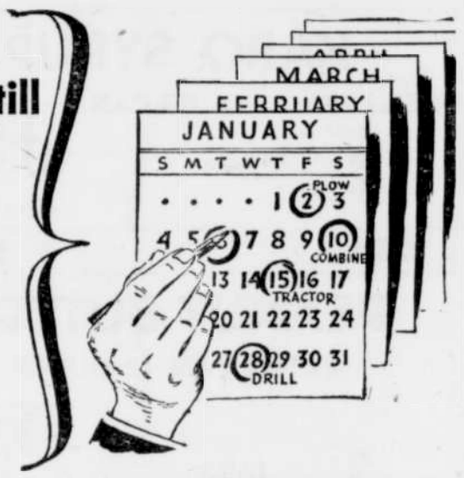
There's still room for YOUR name on this calendar



• Not only in one place, but several. Actually, we mean your name along with your farm machines that need checking over and repair work before they go into the fields next season.

You see, this calendar is our Early Bird Service Schedule. And by getting a date on it now, we can both be sure that anything from a checkup to a complete overhaul will be done during the months your machines are idle.

That's the *best* way for both parties concerned. We'll have plenty of time to do a satisfactory, Blue Ribbon Service job. You'll be insured against breakdowns or lost time during busy weeks ahead. See how it pays to be an "Early Bird"? Line up necessary service work with us now!

In Fire Insurance Too Little is not funny!

Most times a suit that fit us several years ago just won't cover us today. Same with Fire Insurance. A program started years ago might have been a perfect fit for your Insurance needs . . . then. But it may NOT give you full protection today. See us for a FREE analysis of your present-day Insurance needs.

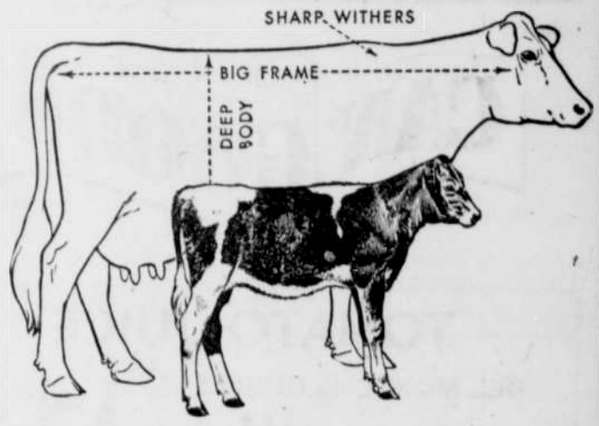
SEE YOUR *Future Cow* AT 4 MONTHS



RAISE BIG CALVES WITH DAIRY QUALITY ON

PURINA CALF STARTENA

A big-framed, quality, 4-month-old heifer almost always makes you a real milk cow . . . that's why it's so important to you to grow a *strong, deep-ribbed calf,* instead of one that is paunchy, and soft with "milk-fat."

You'll find that Purina Calf Startena grows good calves: *big and loose-hided with strong bones and rugged frames* . . . calves that are capable of developing into strong-bodied, heavy-milking dairy cows.

This year, raise a couple of calves on Calf Startena, and see for yourself the difference it makes in size and dairy quality. You'll save about one-half the cost of milk feeding, too.
