## Sandquist Gives Breeders Praise

Mr. Sandquist introduced Senator Elmo Smith and Representative Vern Wilson, who asked that the dairy people keep them informed on legislation needed to keep pace with a rapidly growing and important part of Malheur county economy.

E. M. Hauser, county 4-H club leader, also paid tribute to the Jersey breeders for the important part they had played in 4-H club work. He said that the club program of dairy development was reflected in the increased activity of youngsters and that the club boys and girls were showing an increased interest in quality of their animals. ## Rapid Growth Of Nyssa Shown In Figures Of 1948

### Postal Receipts, Building Permits Exceed Previous Records

The rather rapid growth of Nyssa during the last few years is indicated by figures released by city and post office officials Wednesday in recapitulations of postal receipts and building permits for the year 1948.

So far as is known, the total building permits of \$423,400 far exceeds the figure of any previous year, according to City Manager E. K. Burton and his assistant, Mrs. Hilda Tensen, who compiled the figures. The compilation covers a period of seven years, beginning in 1941.

The building permit total was \$30,300 in 1941, but dropped during the middle of the war period in 1943 to \$3075. By 1947 the yearly total had climbed to \$302,800. The break-down for last year is as follows: 34 residences, \$205,000; 10 private garages, \$7,450; 27 alteration projects, \$25,250; four churches and Legion hall, \$50,500, and 14 business structures, \$135,700.

Postmaster Lloyd Lewis reported that receipts of the Nyssa post office last year amounted to \$28,905.32, as compared to \$27,343.22 in 1947. The gain occurred in the first three quarters of the year. Figures in the last quarter of the two years were about the same.

In 1938 postal receipts were \$12,378 and five years ago they were \$16,850.

Mr. Lewis said the Nyssa office could have greater revenue from box rentals, but the boxes are not available. Local postal men have determined how room could be provided for additional boxes but have been notified by the department that the boxes are not now available. From 60 to 75 families are now on the waiting list for boxes and still others are using boxes that are used by more than one family. The local force could use another 150 boxes.

## INCREASE IN PRICE OF SUGAR WILL AID LOCAL PRODUCERS

Encouraging news for sugar beet growers was received last week with announcement of an increase in the price of sugar.

William M. Carson of Weiser, president of the Nyssa-Nampa District Beet Growers association, said the increase in the wholesale price of sugar will mean an increase of 43 cents per ton to growers on sugar still unsold. He added that only a small percentage of the 1948 sugar has been sold.

Several large sugar companies increased the wholesale price of sugar last week from \$7.75 to \$8 per hundred.

The factory produced its millionth bag of the season at 3 p. m. Monday of this week. The company expects to make 1,250,000 one hundred pound bags or their equivalent in smaller bags by the end of the campaign. This year will be the third year in which the Nyssa factory has exceeded the one million bag mark. The Nampa factory will also manufacture more than one million bags, probably reaching 1,150,000.

## Cabin At Labor Camp Is Burned

A cabin occupied by Cecil Brady and family at the Nyssa labor camp and all of its contents were practically destroyed by fire Tuesday afternoon.

The cabin was gutted, but no one was injured, although three children were reported to have been in the building. The family used the structure for sleeping quarters, so that the contents consisted principally of bedding and clothing. The family used another cabin, which was not damaged, as a kitchen.

Local groups are collecting food and clothing for the stricken family, the last family left at the camp, which was closed December 1.

Loss from the fire, believed started from a stove, was not covered by insurance.

Nyssa firemen extinguished the flames and prevented them from spreading to other cabins.

## Time On Camp Sale Extended

The federal government has voluntarily extended until June, 1949 the time in which the Malheur County Labor Sponsoring association may complete its offer to buy the Nyssa labor camp facilities, association officials announced Wednesday.

The association agreed last September 8 to buy the property for \$15,000 and had a down payment, which was to hold the property until February of this year. As a result of the extension, the association has until sometime in June to raise the money to complete the deal.

One of the difficult restrictions on the sale is that the camp must be maintained as an agricultural workers camp for a period of 20 years.

R. G. Larson, secretary of the group, pointed out that a camp of that type is important to a community such as this because of the agricultural activity in the territory. In many cases in which large families live in such camps, the parents like to work in the onions, potatoes and other crops in which the use of child labor is not very restricted, so they are of benefit in many types of farming.

## Eagles Maintain Unbeaten Record

The Nyssa Eagles won their fourth straight Idaho-Oregon senior basketball contest Wednesday night by defeating the New Plymouth Packers on the losers floor by the score of 88 to 61.
